

Kotter's Components of Change

Adapted from Kotter's change management components.

Individual mental/emotional state (missing)								Heart not in it
	Clear shared vision	Strategic goals and systems	Capacity for change	Actionable steps	Model the way	Reinforce and solidify change	Evaluate and improve	Do it later
Pressure for change		Strategic goals and systems	Capacity for change	Actionable steps	Model the way	Reinforce and solidify change	Evaluate and improve	Quick start, fizzles out
Pressure for change	Clear shared vision		Capacity for change	Actionable steps	Model the way	Reinforce and solidify change	Evaluate and improve	Missing the boat
Pressure for change	Clear shared vision	Strategic goals and systems		Actionable steps	Model the way	Reinforce and solidify change	Evaluate and improve	Anxiety, frustration
Pressure for change	Clear shared vision	Strategic goals and systems	Capacity for change		Model the way	Reinforce and solidify change	Evaluate and improve	Hazardous efforts, false starts
Pressure for change	Clear shared vision	Strategic goals and systems	Capacity for change	Actionable steps		Reinforce and solidify change	Evaluate and improve	Cynicism and distrust
Pressure for change	Clear shared vision	Strategic goals and systems	Capacity for change	Actionable steps	Model the way		Evaluate and improve	Go back to old ways
Pressure for change	Clear shared vision	Strategic goals and systems	Capacity for change	Actionable steps	Model the way	Reinforce and solidify change		Sceptical and stagnant
Leadership change team and change agents (missing)								Superficial
