	effectively. 3. Learner shows a high degree of reflection and insight into their personal values and where they might like to shift or adjust them in order to improve their decision making.	more effectively. 3. Learner shows a moderate degree of reflection and insight into their personal values and where they might like to shift or adjust them in order to improve their decision making.	values to communicate decisions more effectively. 3. Learner has done little reflection and does not show much insight into their personal values and where they might like to shift or adjust them in order to improve their decision making.		

Self-Development Plan	Excellent	Good	Fair	Poor	Criterion Score
Goals statement	9 points The learner has identified at least 3 appropriately challenging and realistic goals. The goal statements are very well-written, reflecting all of the SMART criteria. The goals appropriately and directly reflect the learner's work in the Johari Window exercise.	6 points The learner has identified 3 appropriately challenging and realistic goals. The goal statements are well-written, reflecting most of the SMART criteria. The goals mostly reflect the learner's work in the Johari Window exercise. Some enhancement possible.	3 points The learner has identified only 1-2 goals, or the goals are either far too challenging or too easy to achieve. The goal statements need improvement in clarity and addressing the SMART criteria. The goals largely do not reflect the Johari Window exercise.	0 points The learner has only identified 1 goal or this section was incomplete. The goal statement is poorly written or incomplete and does not meet SMART criteria. The goals do not reflect the Johari Window exercise.	/ 9

Self-Development Plan	Excellent	Good	Fair	Poor	Criterion Score
Influences	9 points The goals appropriately and directly reflect the learner's work in the Johari Window exercise. The learner has done an excellent job of clearly and thoughtfully identifying who/what may influence their goals. The learner has very clearly and realistically identified people and resources that will help them achieve their goals. The learner has done a very realistic assessment of what might get in the way of them achieving their goal.	6 points The goals mostly reflect the learner's work in the Johari Window exercise. Some enhancement possible. The learner has done a good job of clearly and thoughtfully identifying who/what may influence their goals. The learner has identified people and resources that will help them achieve their goals. There may be room for additions. The learner has done an adequate and realistic assessment of what might get in the way of	3 points The goals largely do not reflect the Johari Window exercise. The learner's assessment of influences on their goal needs further consideration. The learner has not done a thorough reflection on the people and resources that could help them achieve their goals. The learner has room for improvement in their assessment of what might get in their way of achieving their goals.	1 point The goals do not reflect the Johari Window exercise. There has been no assessment of influences. There is no assessment of the people and resources required to support their goals. There has been no assessment of potential barriers.	/ 9

Self-Development Plan	Excellent	Good	Fair	Poor	Criterion Score
		them achieving their goal.			
Conditions for Success	9 points The learner has a solid understanding of success factors and has very thoughtfully and clearly articulated the conditions that will enable their success on each goal. The learner has a comprehensive understanding of their strengths and how they will contribute to success. The learner has a very solid understanding of what success will look like for each of their goals.	6 points The learner has a good understanding of success factors and clearly articulated conditions that will enable their success on each goal. The learner has a good understanding of their strengths and how they will contribute to success. The learner has a good understanding of what success will look like for each of their goals.	3 points The learner has not fully articulated or thought through the conditions that will enable their success on all goals, or they have not addressed success factors for all goals. The learner has a basic understanding of their strengths and how they will contribute to success. The learner has a basic understanding of what success will look like for each of their goals.	0 points There has been no assessment of conditions needed for success. The learner does not have a handle on their strengths or how those will contribute to success. There is a lack of understanding of what success will look like for each of their goals.	/ 9

Self-Development Plan	Excellent	Good	Fair	Poor	Criterion Score
Short term goals	9 points Each long-term goal includes three or more milestone goals. The short-term goals meet all SMART criteria and are very logical in connection to the achievement of the long-term goal they have identified. The learner has identified at least one realistic and logical action they will take to achieve each short-term goal.	6 points Each long-term goal includes three milestone goals. The short-term goals meet most SMART criteria in most cases and are generally logical in connection to the achievement of the long-term goal they have identified. The learner has identified one action they will take to achieve each short-term goal, and for the most part they are logical and realistic.	3 points There are 1-2 milestone goals per long-term goal. The short-term goals do not meet most of the SMART criteria in most cases and/or are not clearly connected to achievement of the long-term goals. The learner has not identified actions for some of the goals or the actions are not realistic or logical.	0 points There are few, if any, milestone goals identified or learner does not understand what is required. There are few/no short-term goals or learner does not address any SMART criteria. The learner has not identified actions they will take to achieve the short-term goals.	/ 9

Self-Development Plan	Excellent	Good	Fair	Poor	Criterion Score
Assessing Progress and Learning	6 points The learner has a solid understanding of what progress looks like and has positive and realistic ideas about how they will act and celebrate advancement and achievement of their goals. The learner has taken the time to reflect on their learnings from this exercise and has shown great depth and meaningful reflection about their ability to lead themselves towards their goals.	4 points The learner has a good understanding of what progress looks like and has a plan for how they will celebrate the advancement and achievement of their goals. The learner has taken the time to reflect on their learnings from this exercise and has shown some good insight and reflection into their ability to lead themselves towards their goals.	2 points The learner has challenges in understanding what progress looks like and needs to reflect further on how they will act on or celebrate advancement and achievement of their goals. The learner has taken little time to reflect on their learnings from this exercise and does not show meaningful reflection about their ability to lead themselves towards their goals.	0 points The learner has not thought about what progress looks like or how they will celebrate advancement and achievement of their goals. The learner has not taken the time to reflect on their learnings from this exercise.	/ 6

Self-Development Plan	Excellent	Good	Fair	Poor	Criterion Score
Writing	3 points Writing style throughout the assignment is very clear and concise and free of grammatical and spelling errors.	2 points Writing style is clear and concise and includes only a few errors.	1 point Writing style lacks clarity, conciseness and has quite a few errors which take away from the reader's ability to understand.	0 points Writing is unclear, unfocused with little attention to detail/ has not been proofread.	/ 3
