

Minor Ailments Algorithms & Treatments

TABLE OF CONTENTS

Cough

Corns & Calluses

Dysmenorrhea (Menstrual Cramps)

Hemorrhoids

Insect bites & Stings with Urticaria (Hives)

Oral Aphthae/Ulcers (Canker Sores)

Pinworms & Threadworms

Herpes Zoster (Shingles)

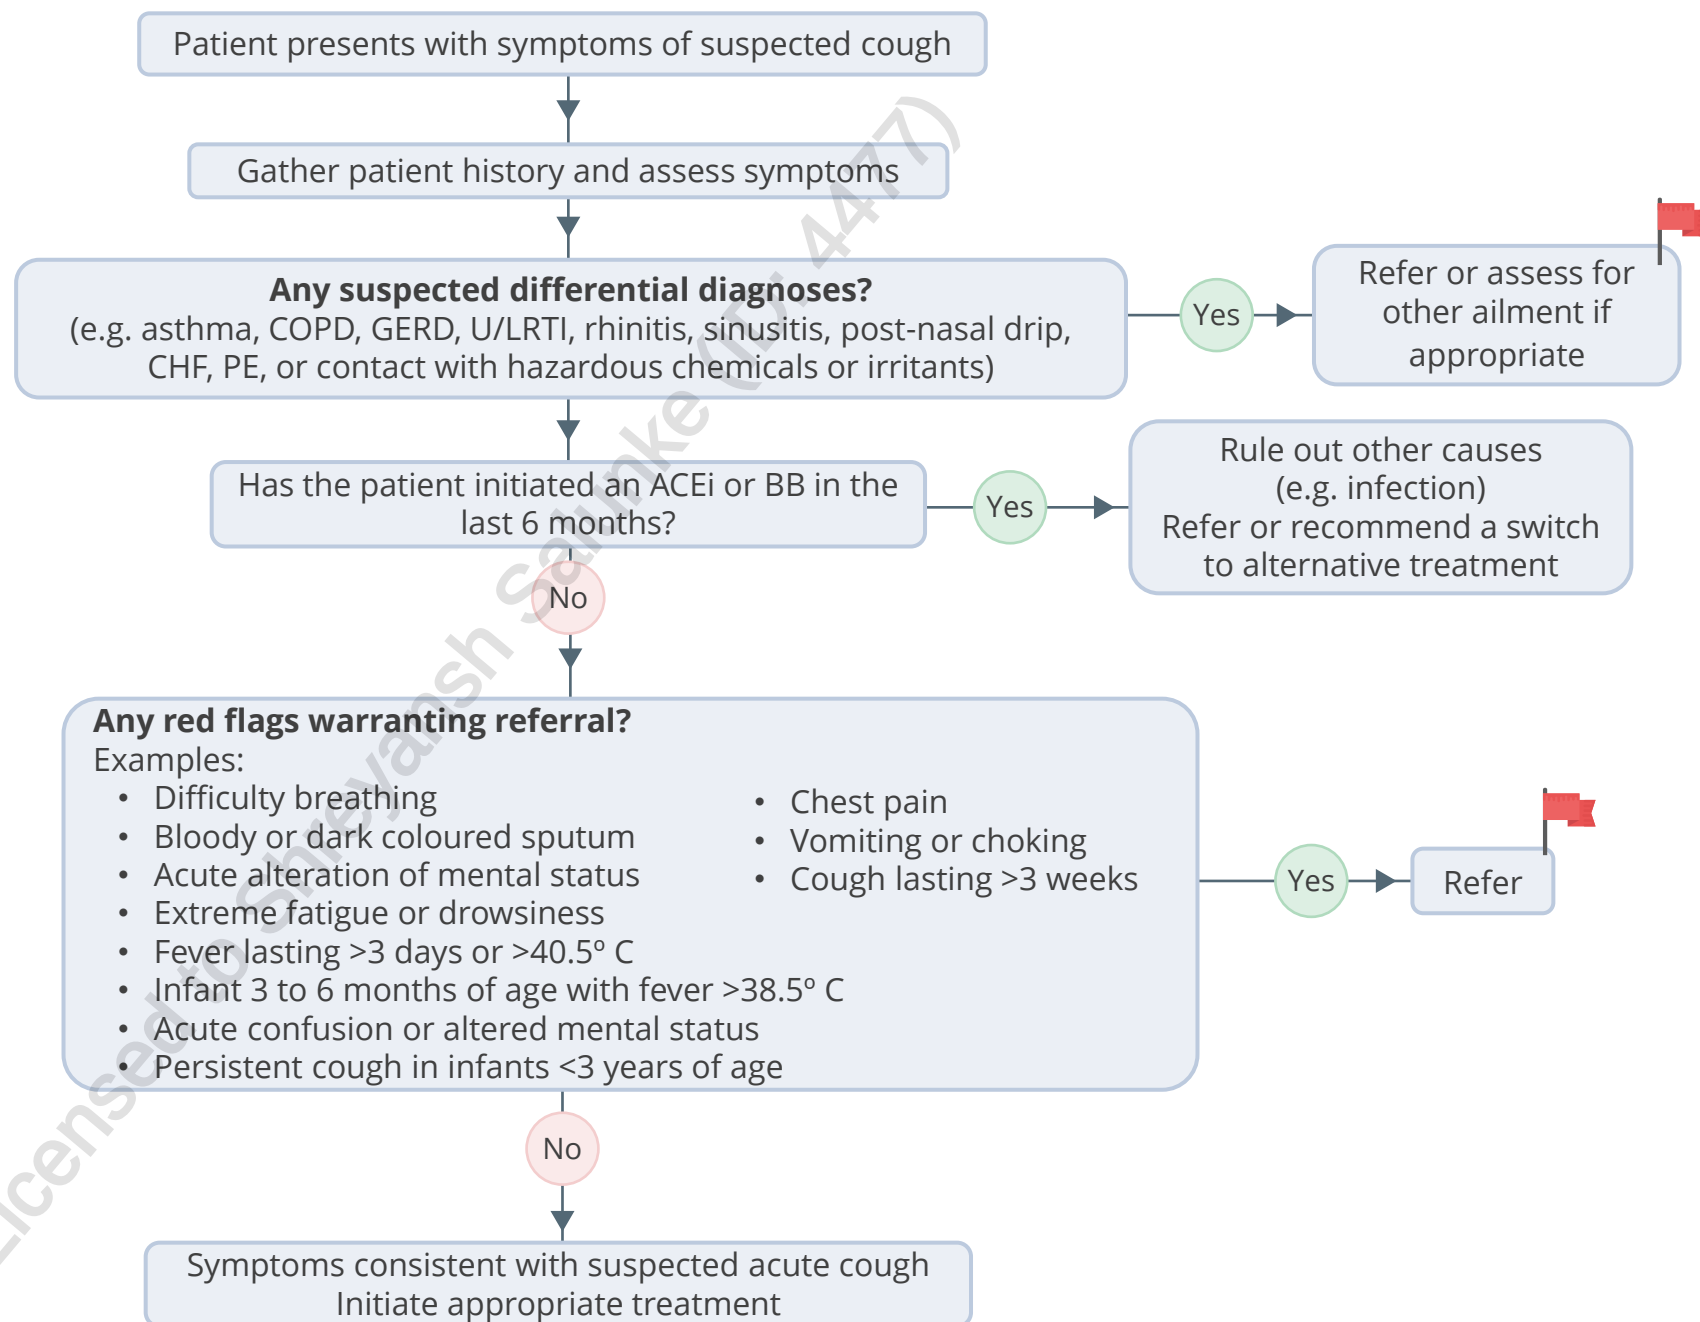

Seborrheic Dermatitis and Dandruff

Verrucae (Vulgaris and Plantar Warts)

Xerophthalmia (Dry Eyes)

ASSESSMENT ALGORITHM

COUGH

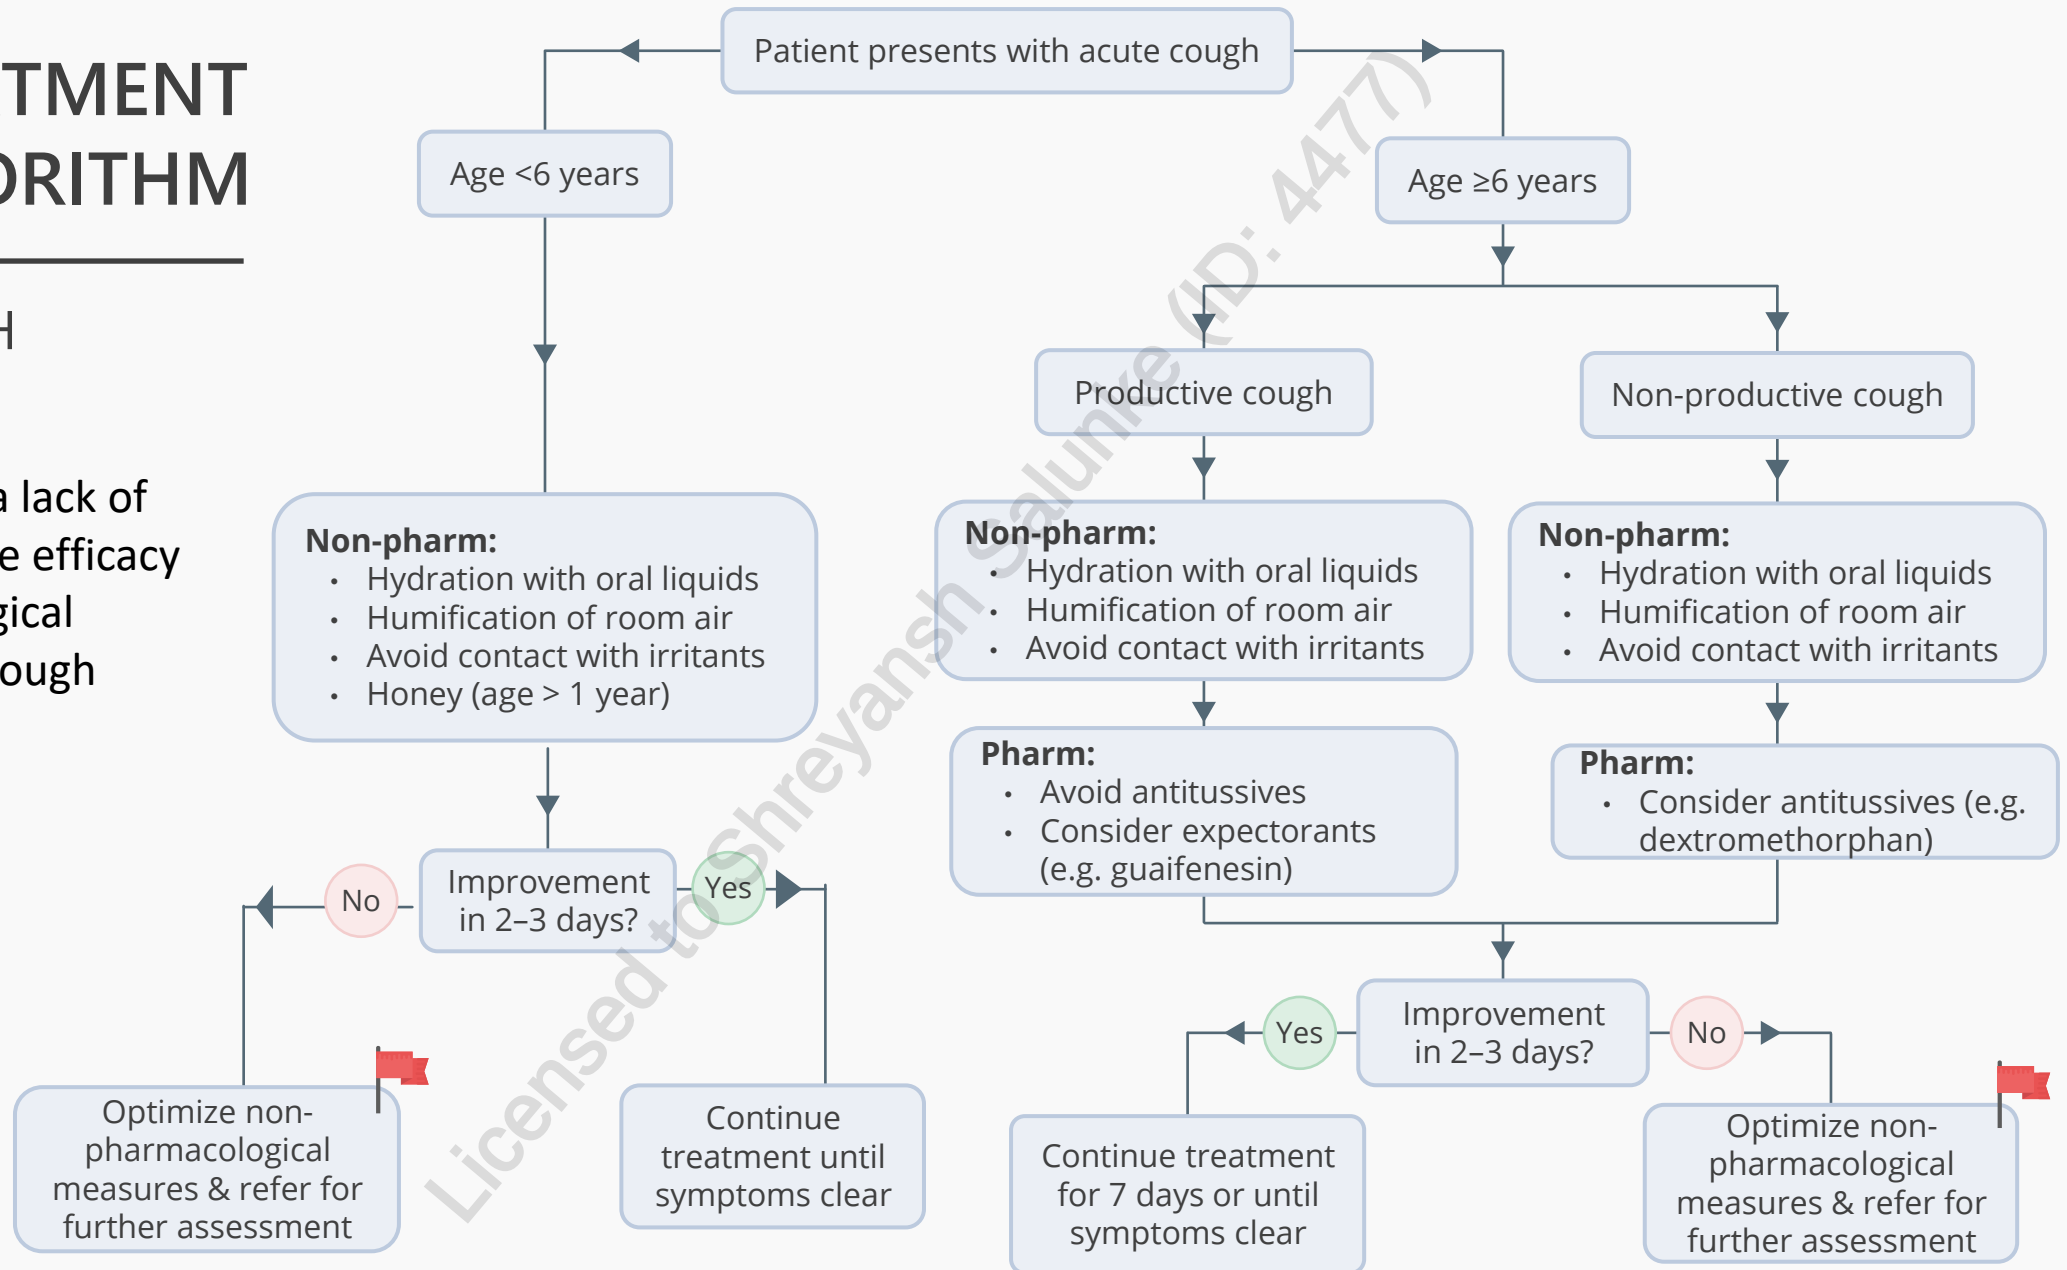

LEGEND

ACEi: Angiotensin-converting enzyme inhibitor
BB: Beta-blocker
COPD: Chronic obstructive pulmonary disease
CHF: Congestive heart failure
GERD: Gastroesophageal reflux disease
PE: Pulmonary embolism
U/LRTI: Upper/Lower respiratory tract infection

TREATMENT ALGORITHM

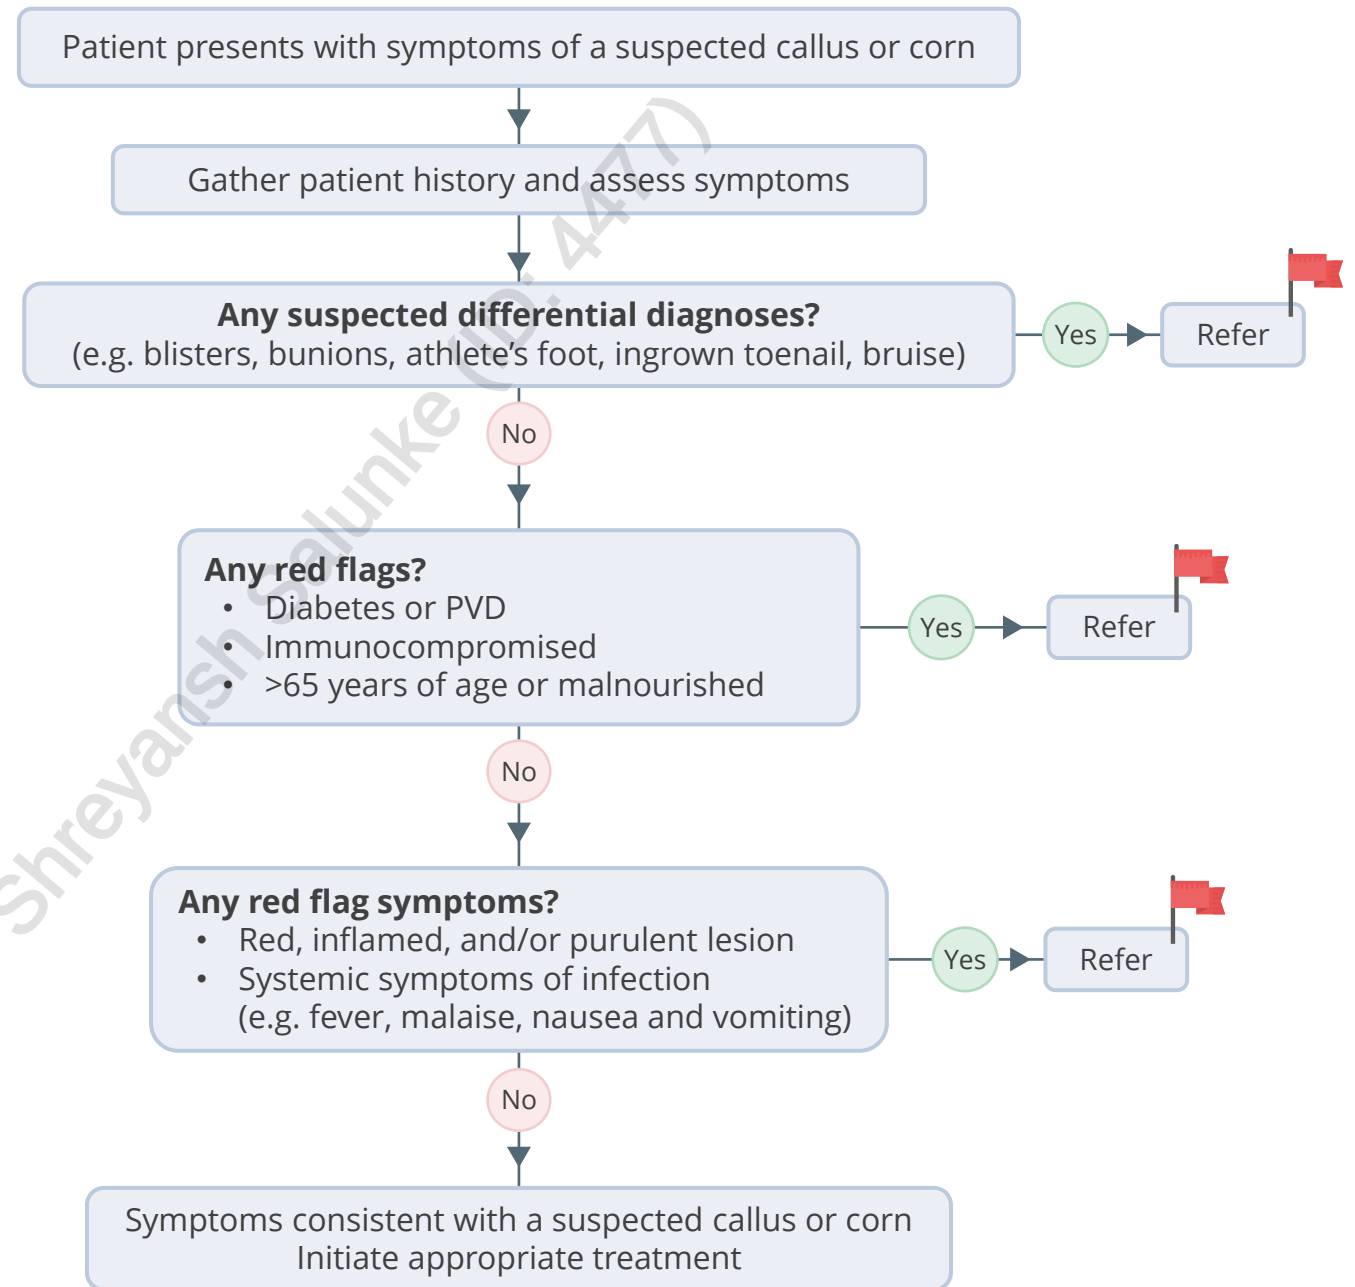

COUGH

Note: There is a lack of evidence for the efficacy of pharmacological treatment for cough

ASSESSMENT ALGORITHM

CALLUSES AND CORNS

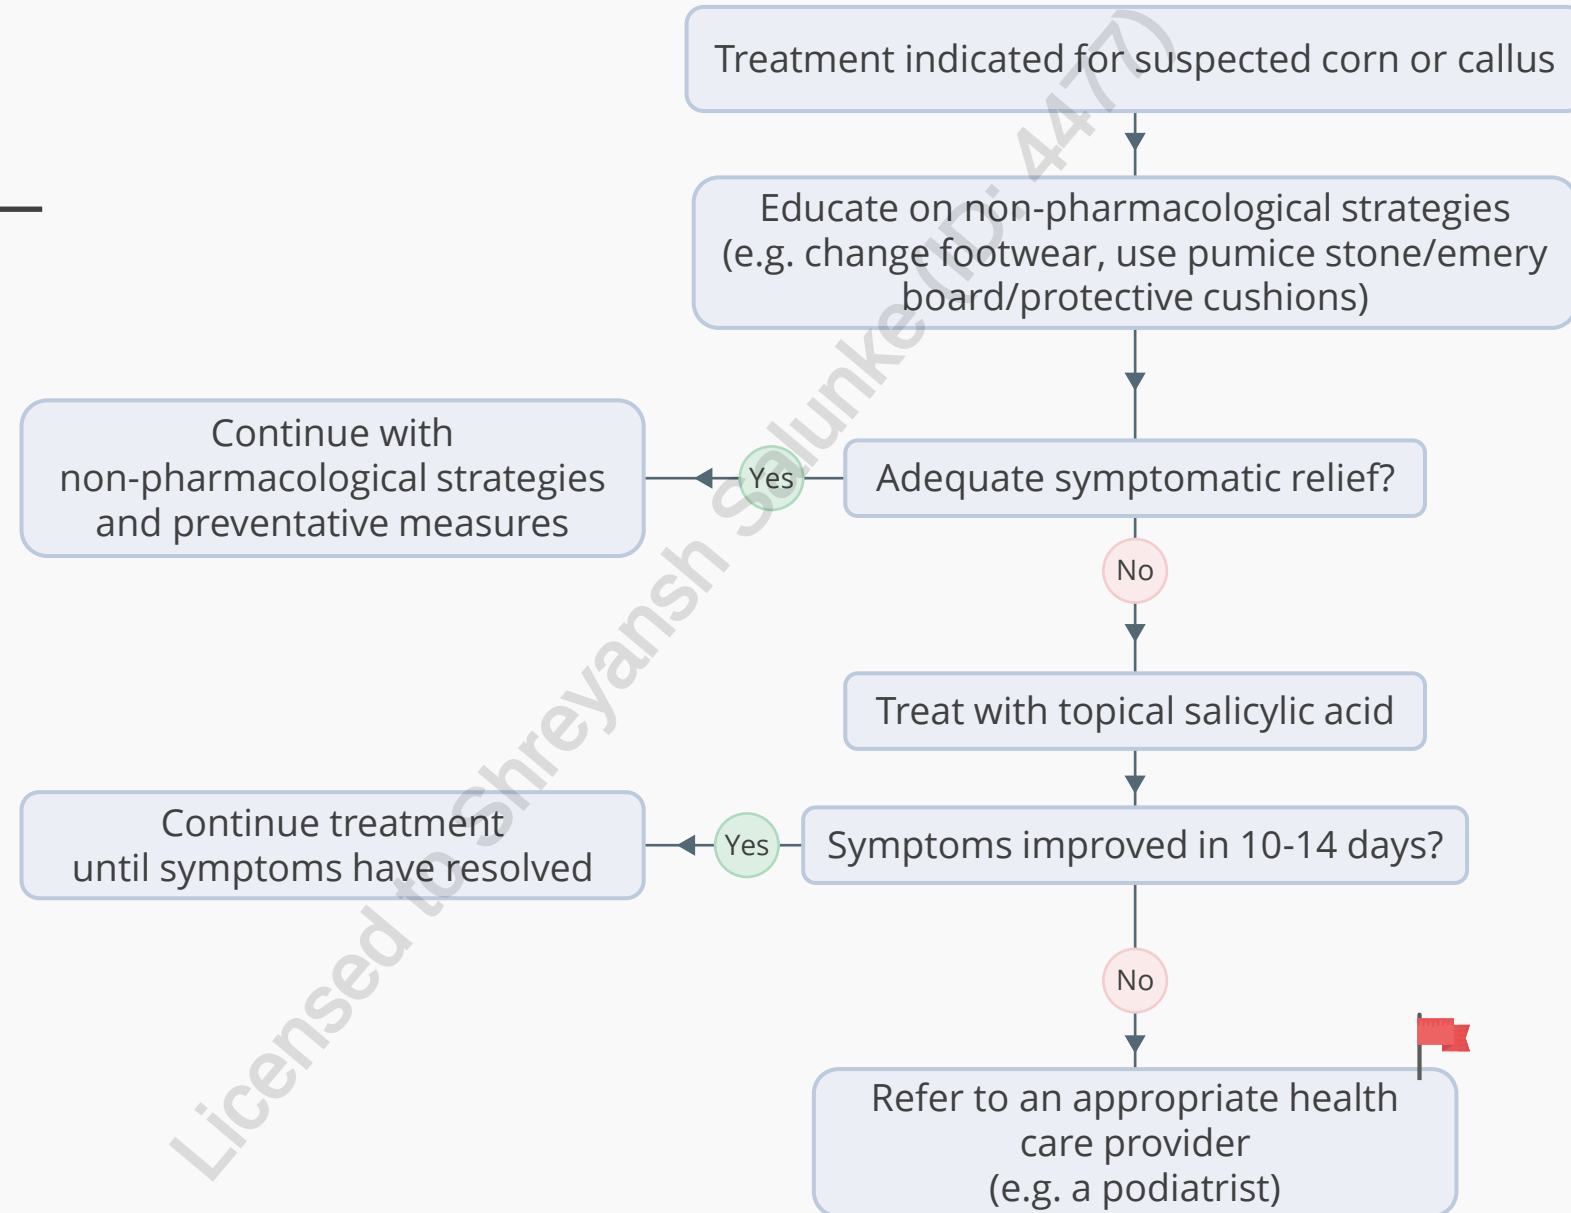

LEGEND

PVD: Peripheral vascular disease

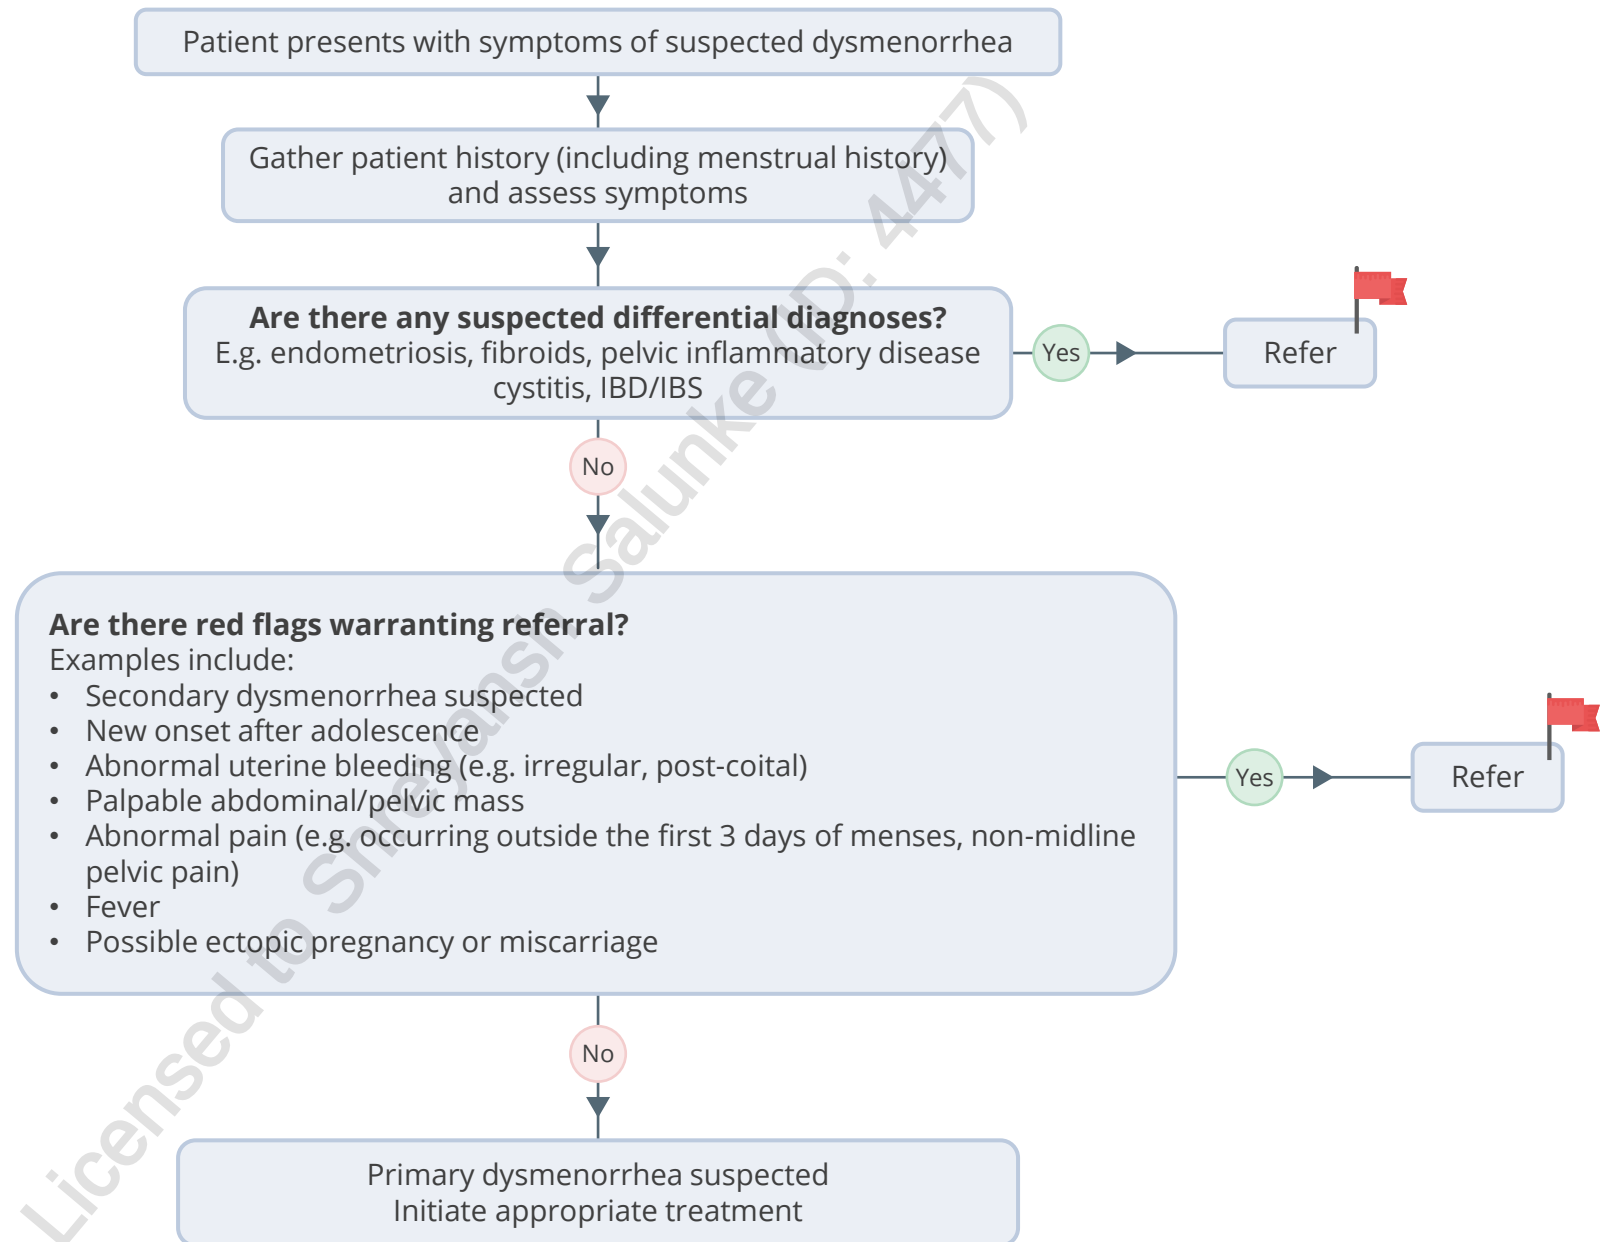

TREATMENT ALGORITHM

CORNS AND CALLUSES

ASSESSMENT ALGORITHM

DYSMENORRHEA (MENSTRUAL CRAMPS)

LEGEND

IBD: Inflammatory bowel disease
IBS: Irritable bowel syndrome

TREATMENT ALGORITHM

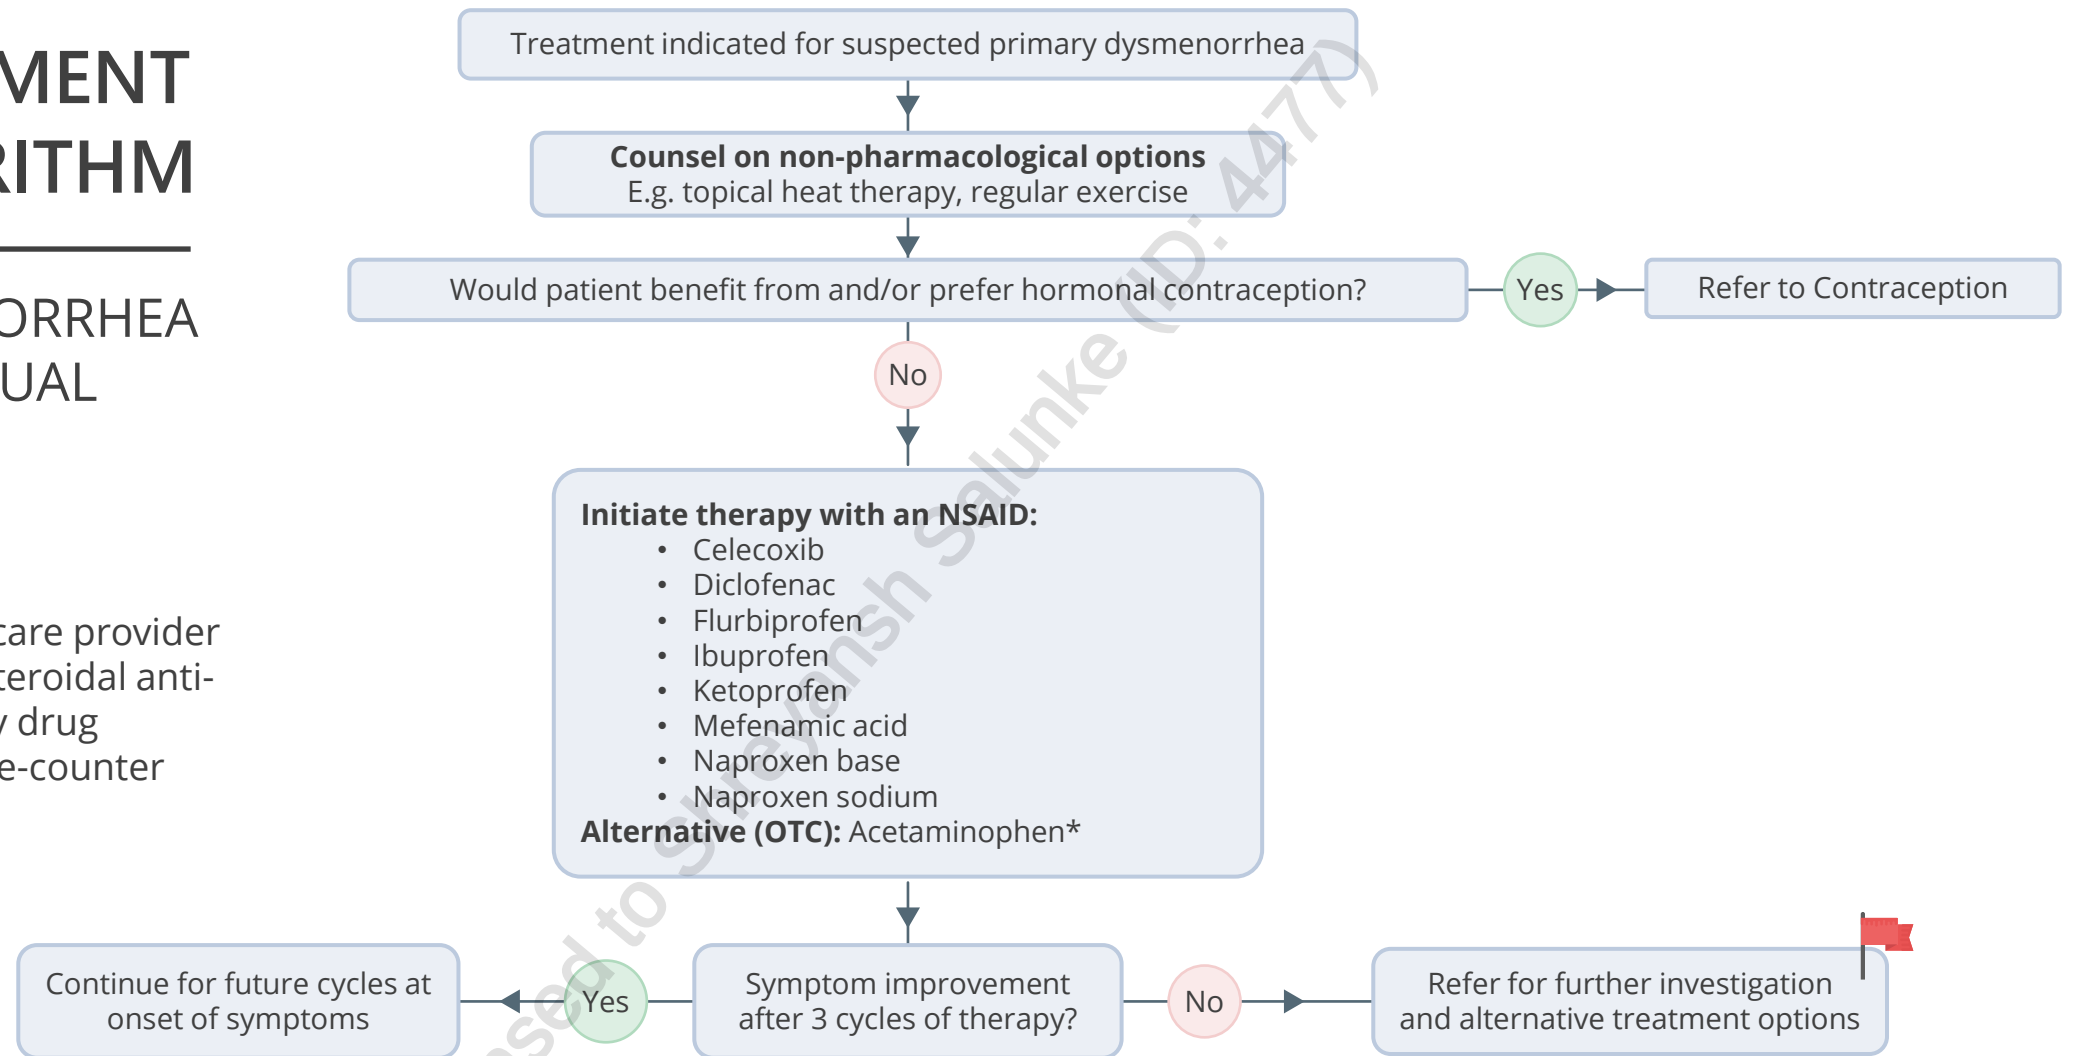

DYSMENORRHEA (MENSTRUAL CRAMPS)

LEGEND

HCP: Health care provider

NSAID: Nonsteroidal anti-inflammatory drug

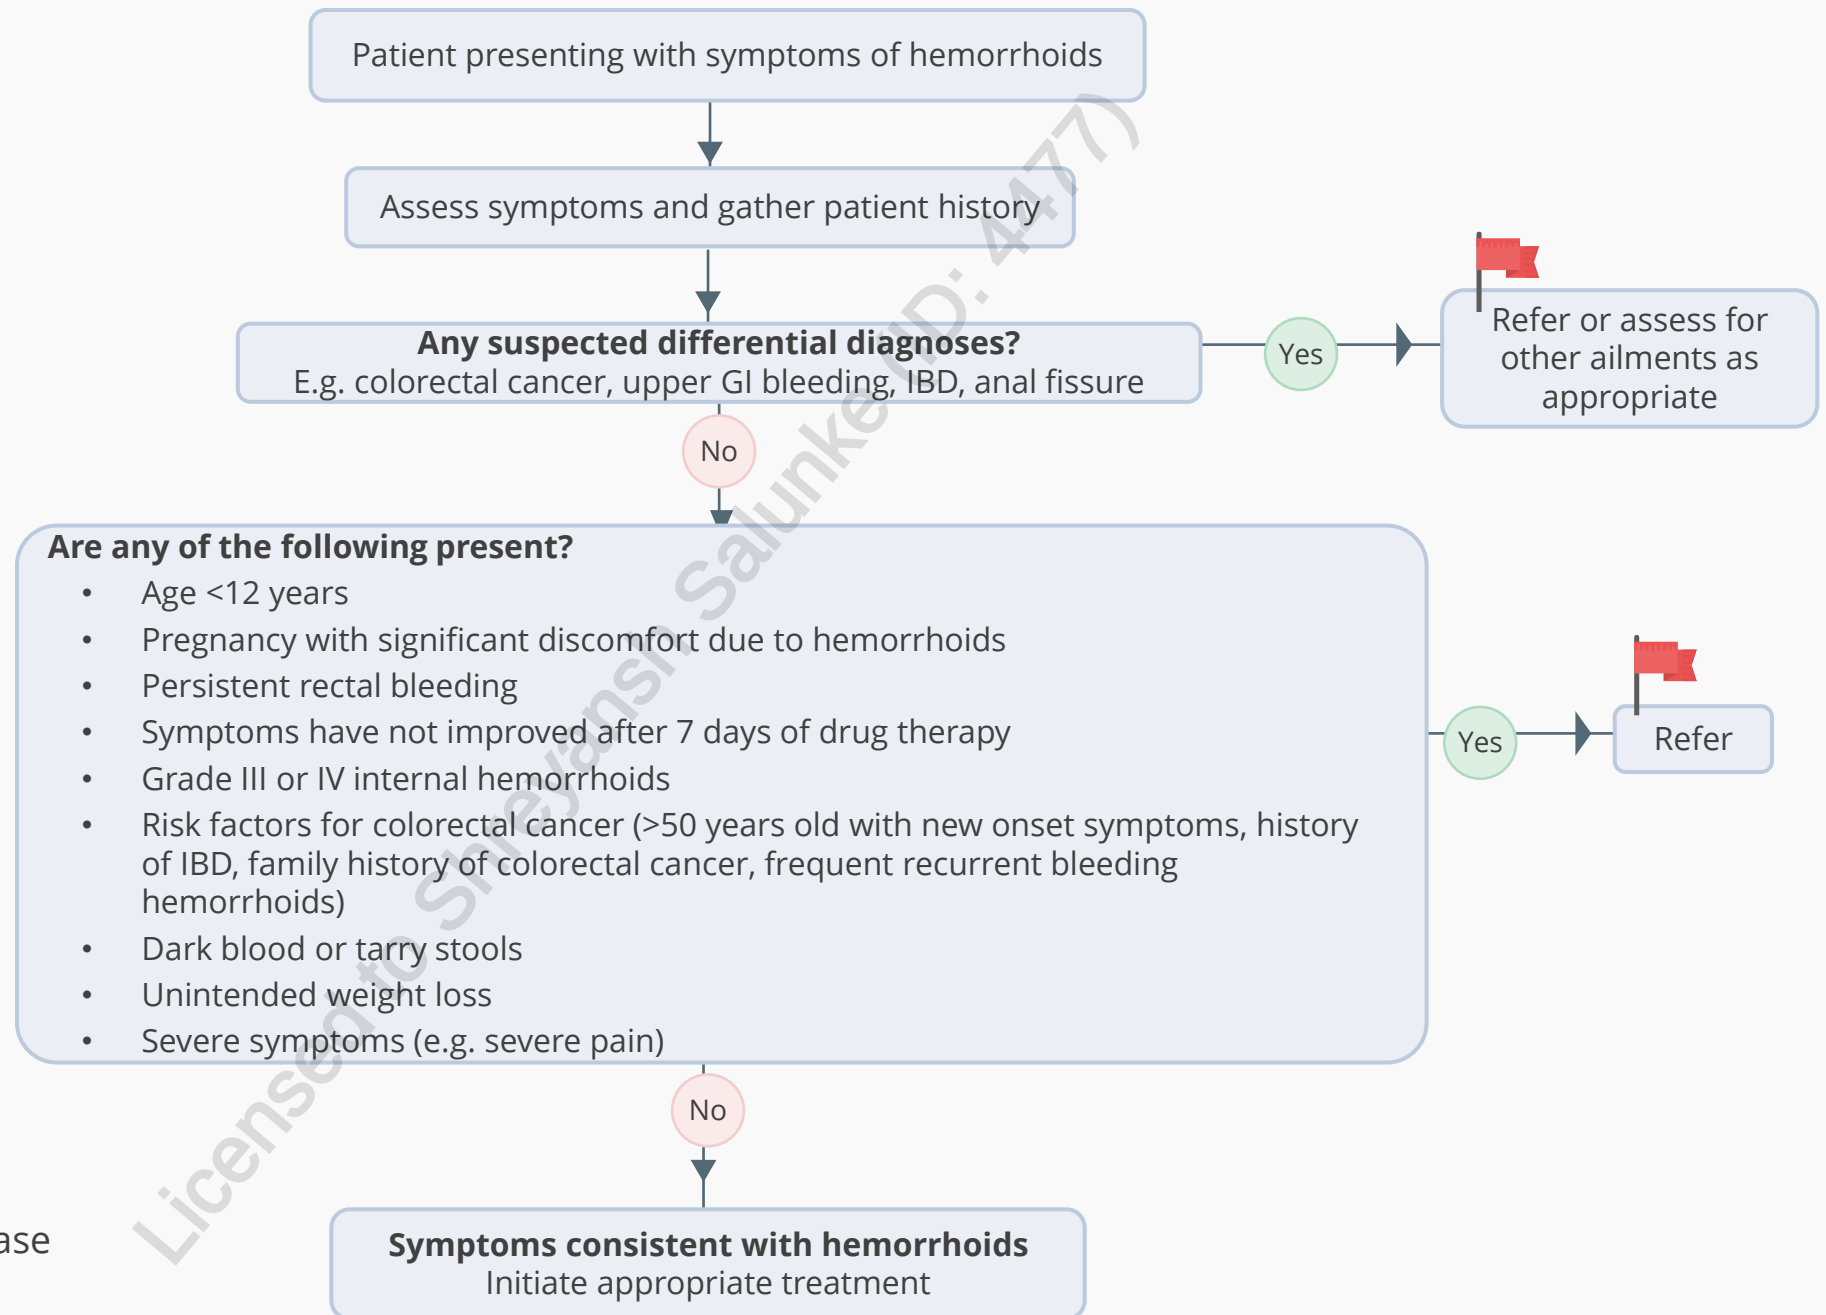

OTC: Over-the-counter

*May be an alternative option for those who require pharmacological treatment for pain relief and prefer to avoid hormone-containing contraceptives but have a contraindication to or cannot tolerate NSAIDs (e.g. hypersensitivity, gastric ulcer). Pharmacists should check if they are authorized to prescribe this treatment under their provincial minor ailments prescribing program.

ASSESSMENT ALGORITHM

HEMORRHOIDS

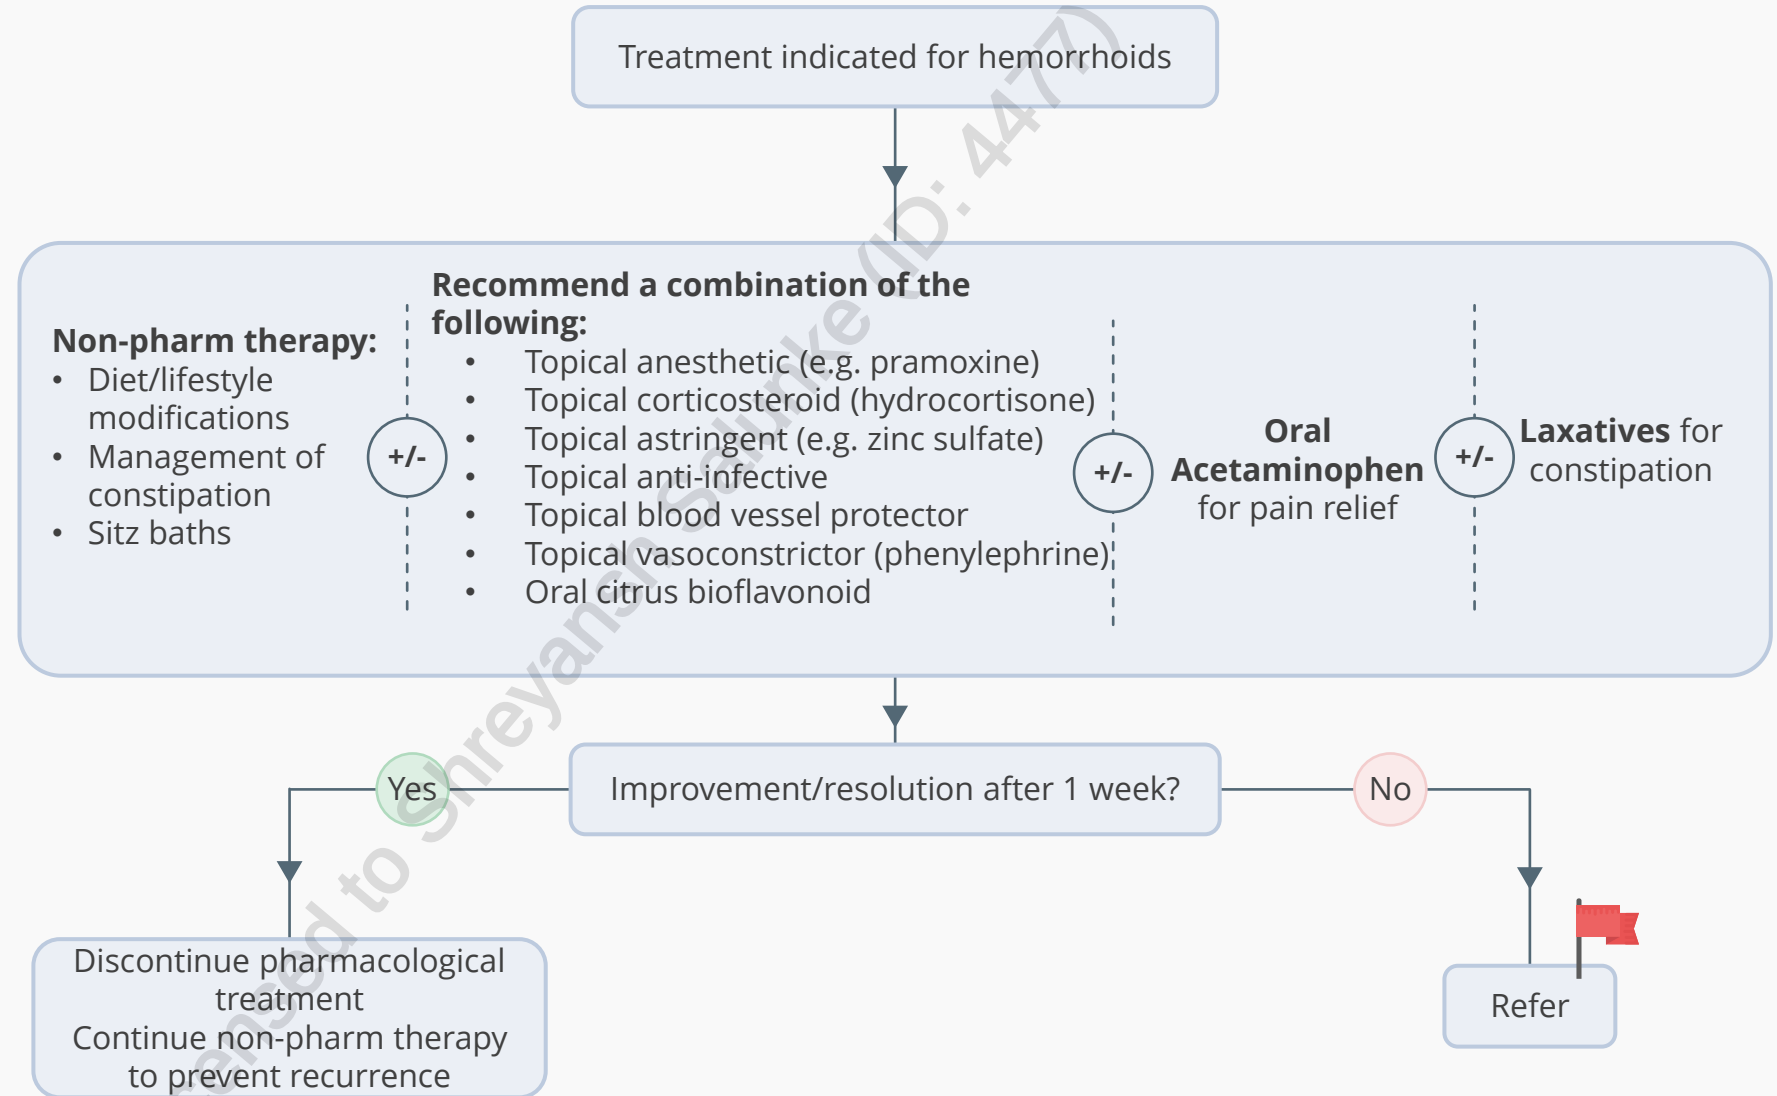

LEGEND

IBD: Inflammatory Bowel Disease

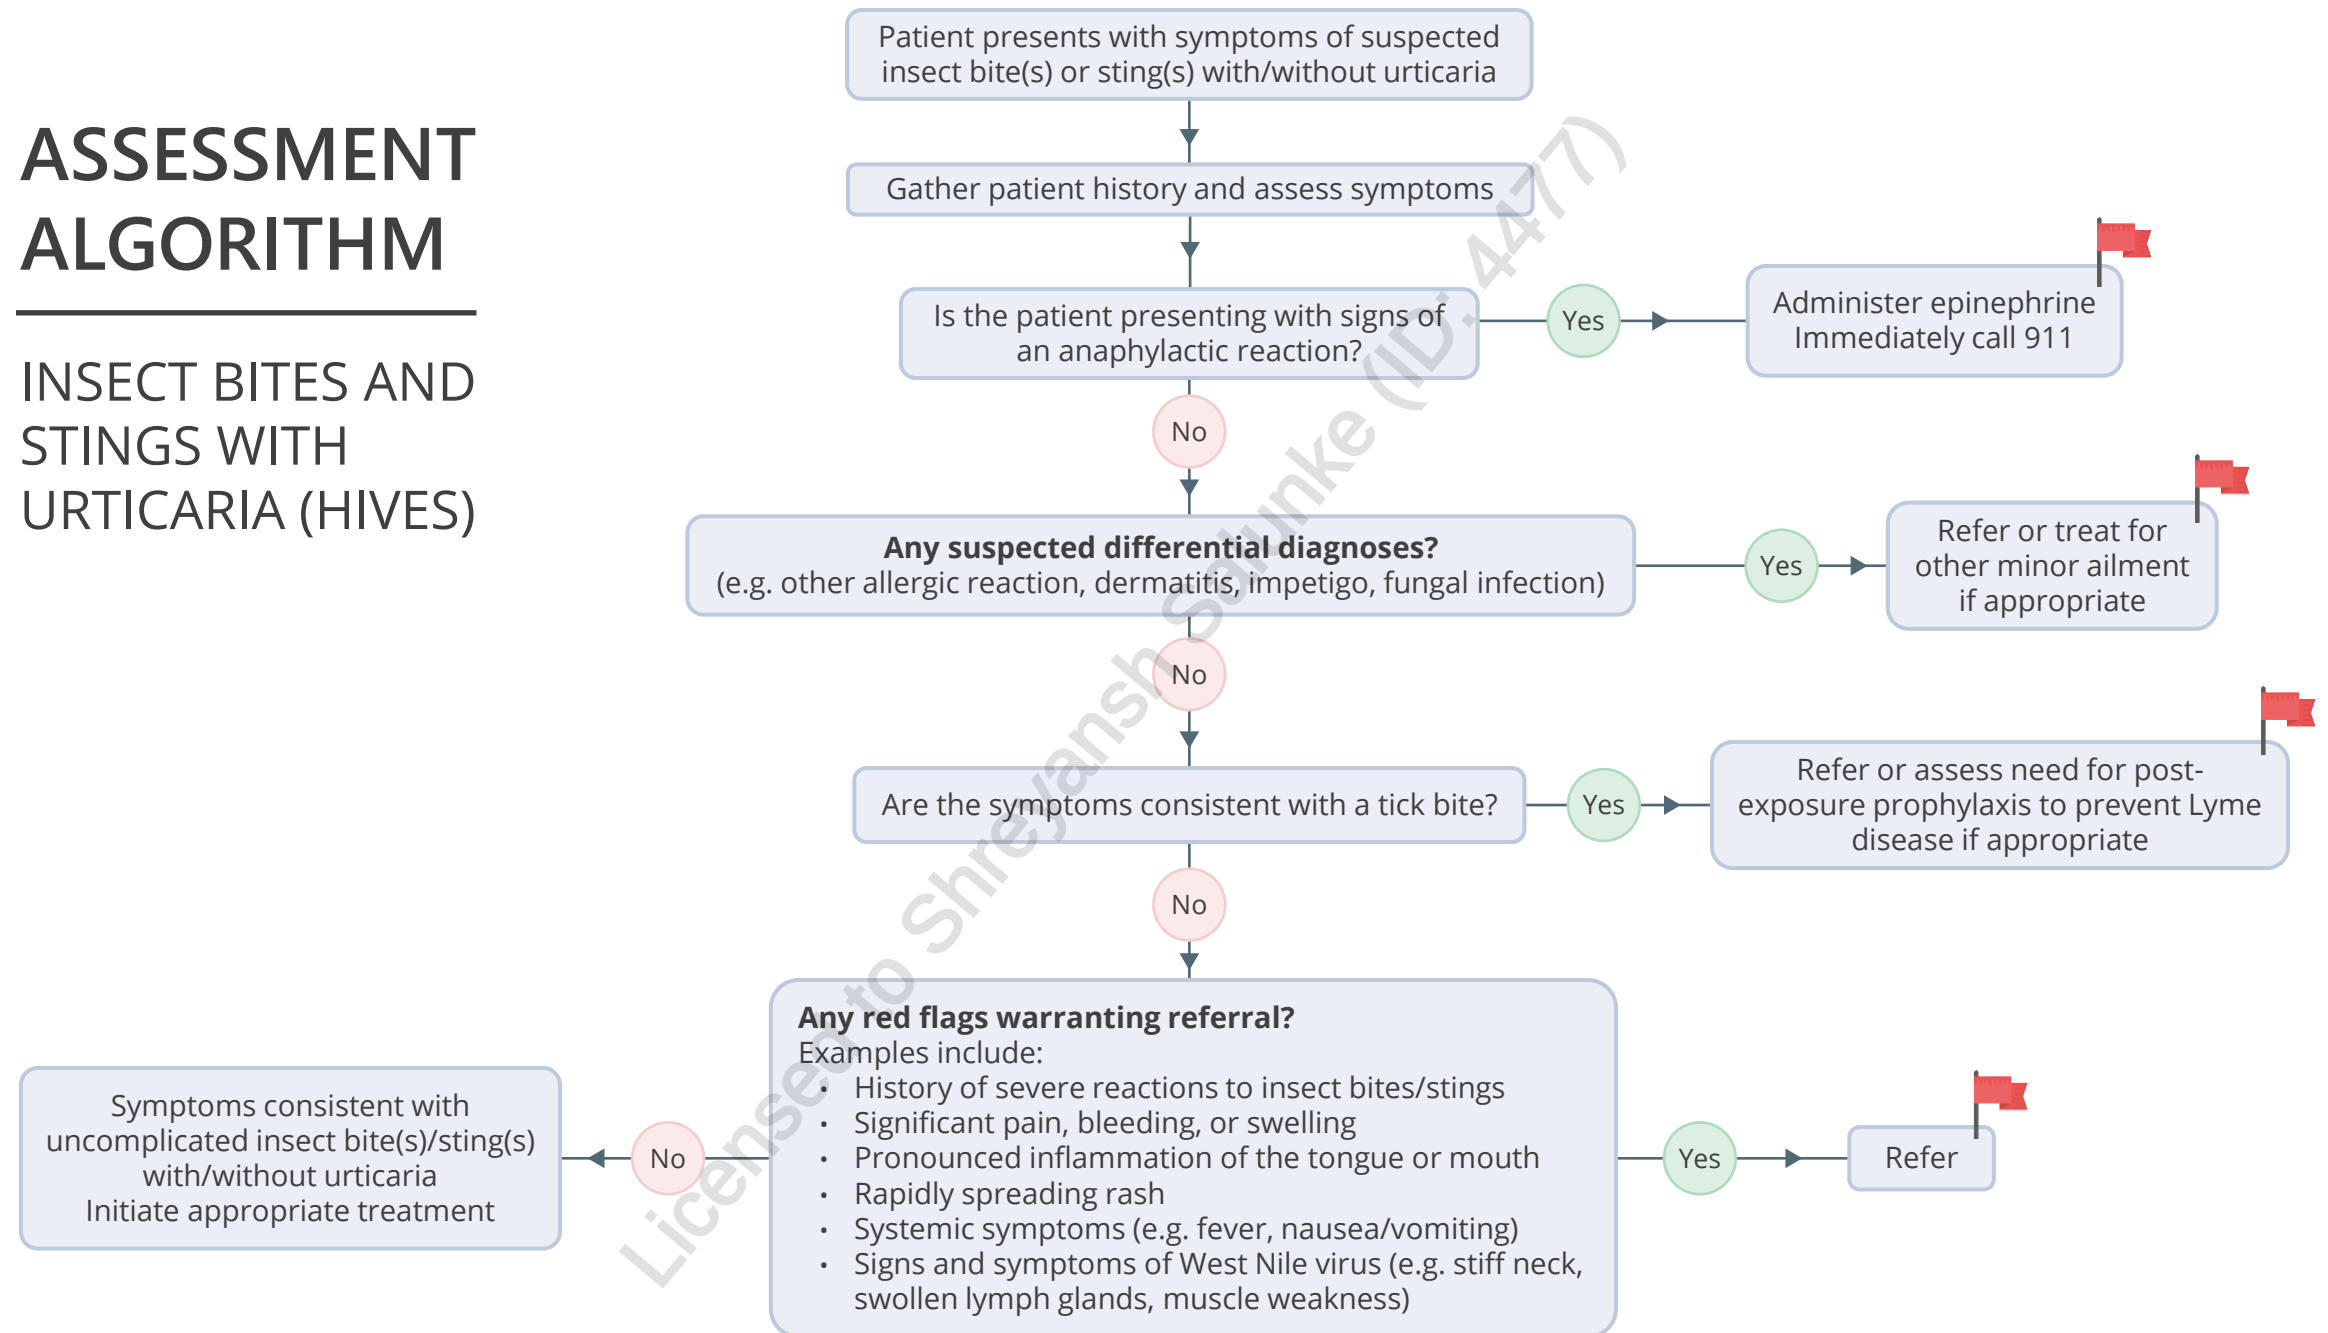

TREATMENT ALGORITHM

HEMORRHOIDS

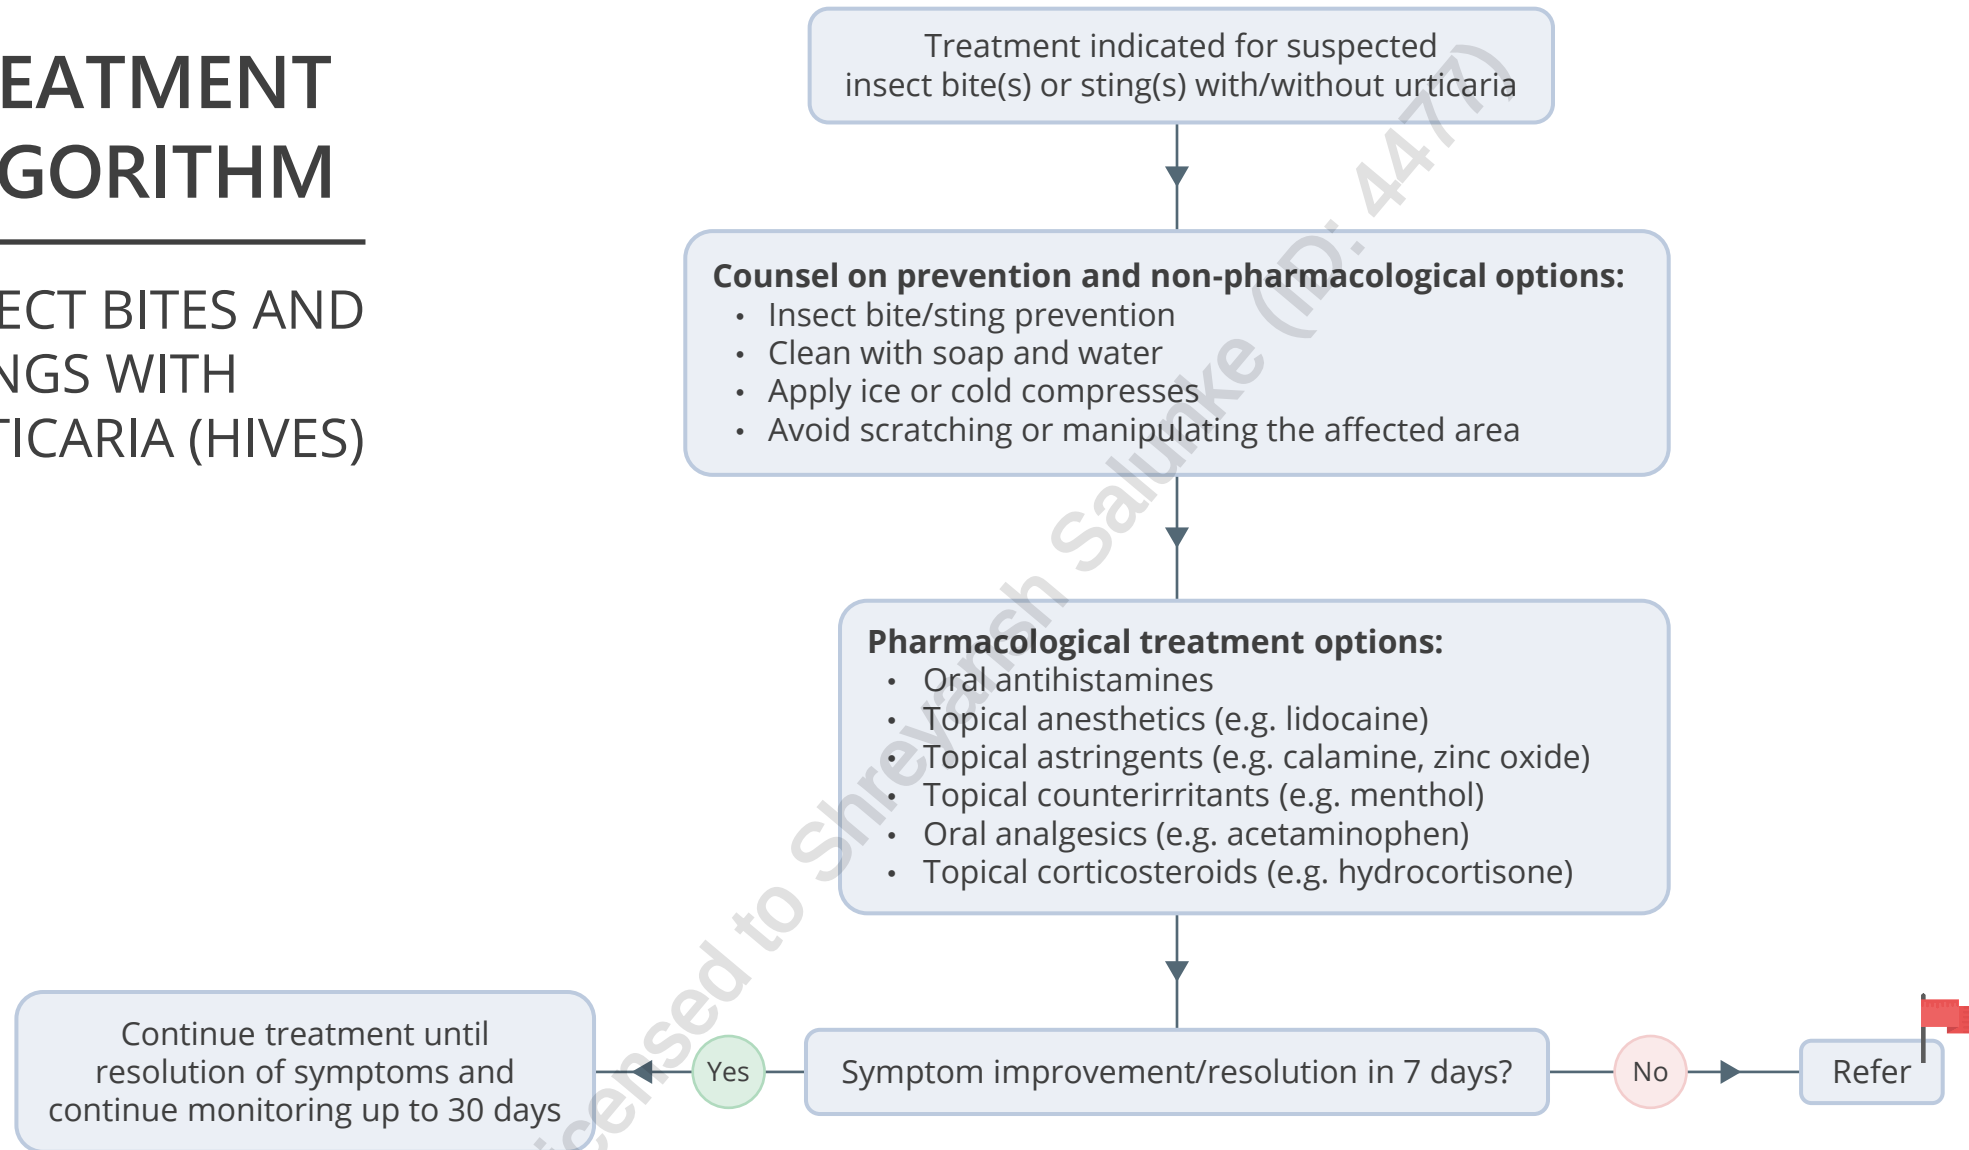

ASSESSMENT ALGORITHM

INSECT BITES AND STINGS WITH URTICARIA (HIVES)

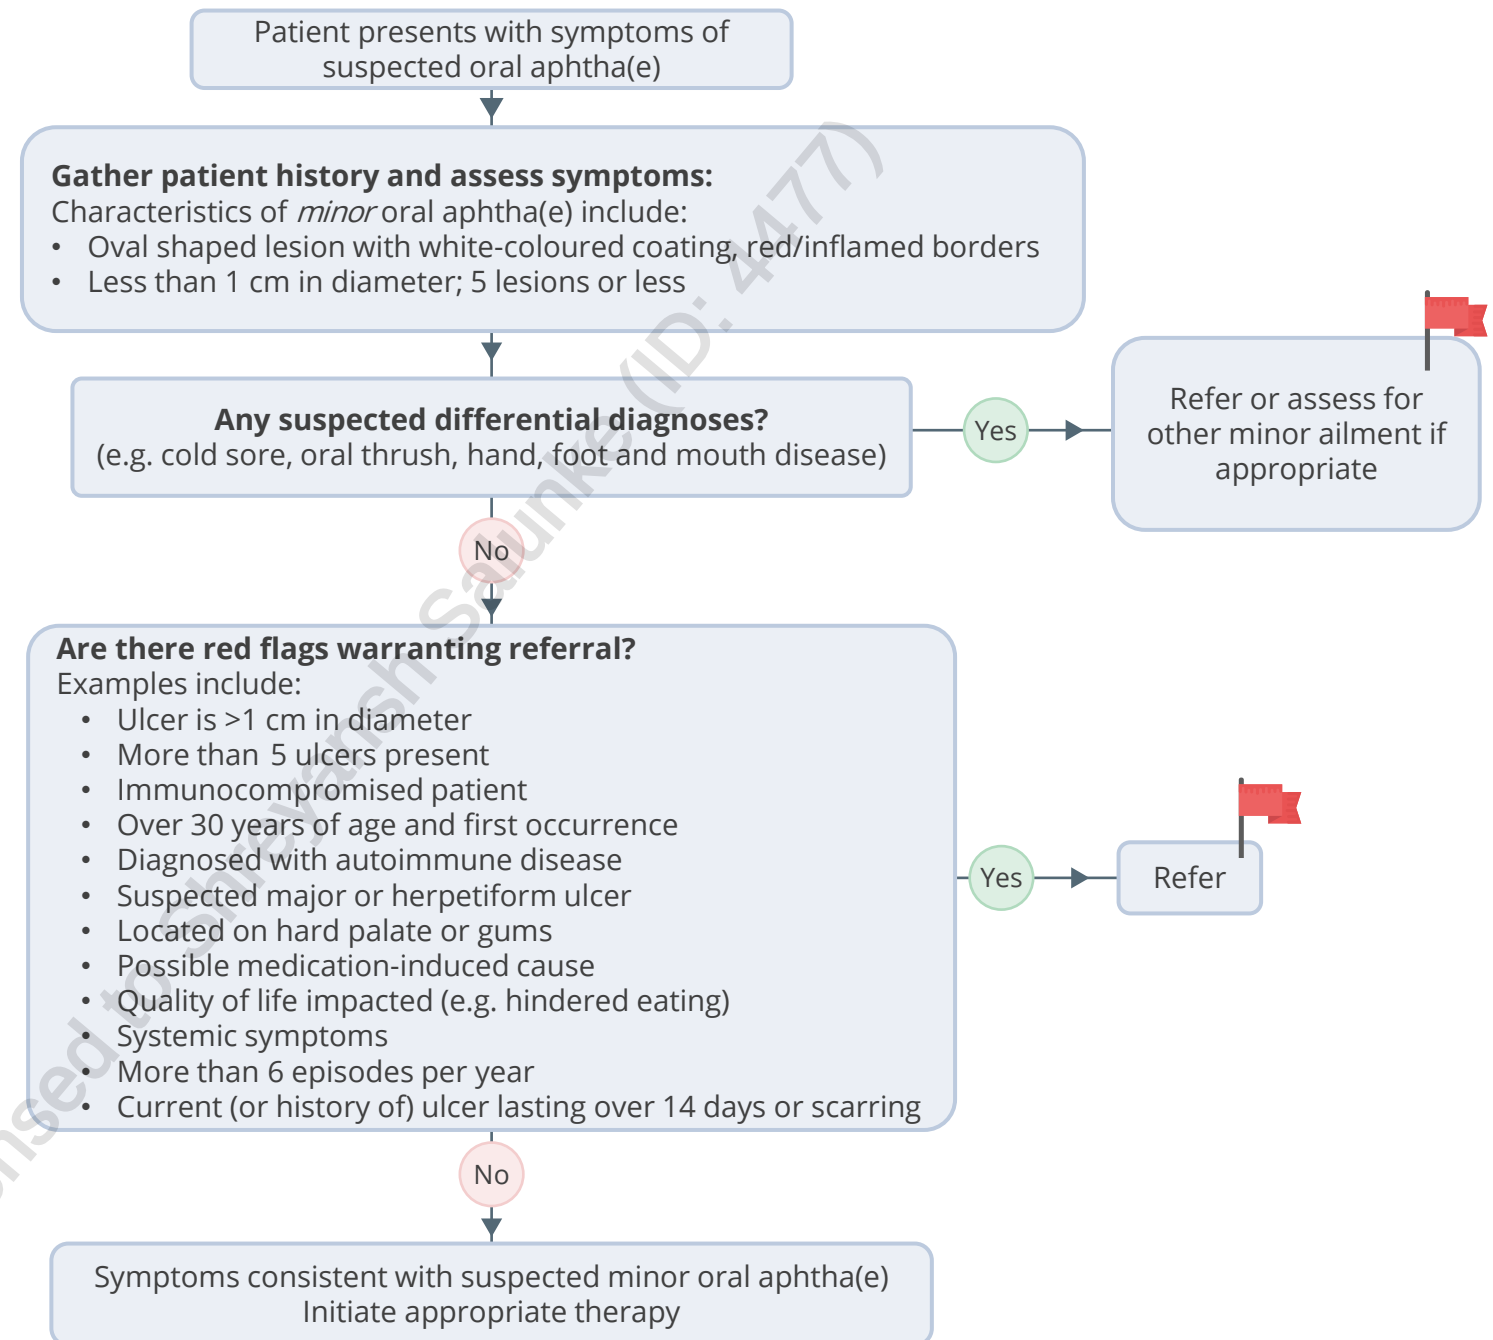

TREATMENT ALGORITHM

INSECT BITES AND STINGS WITH URTICARIA (HIVES)

ASSESSMENT ALGORITHM

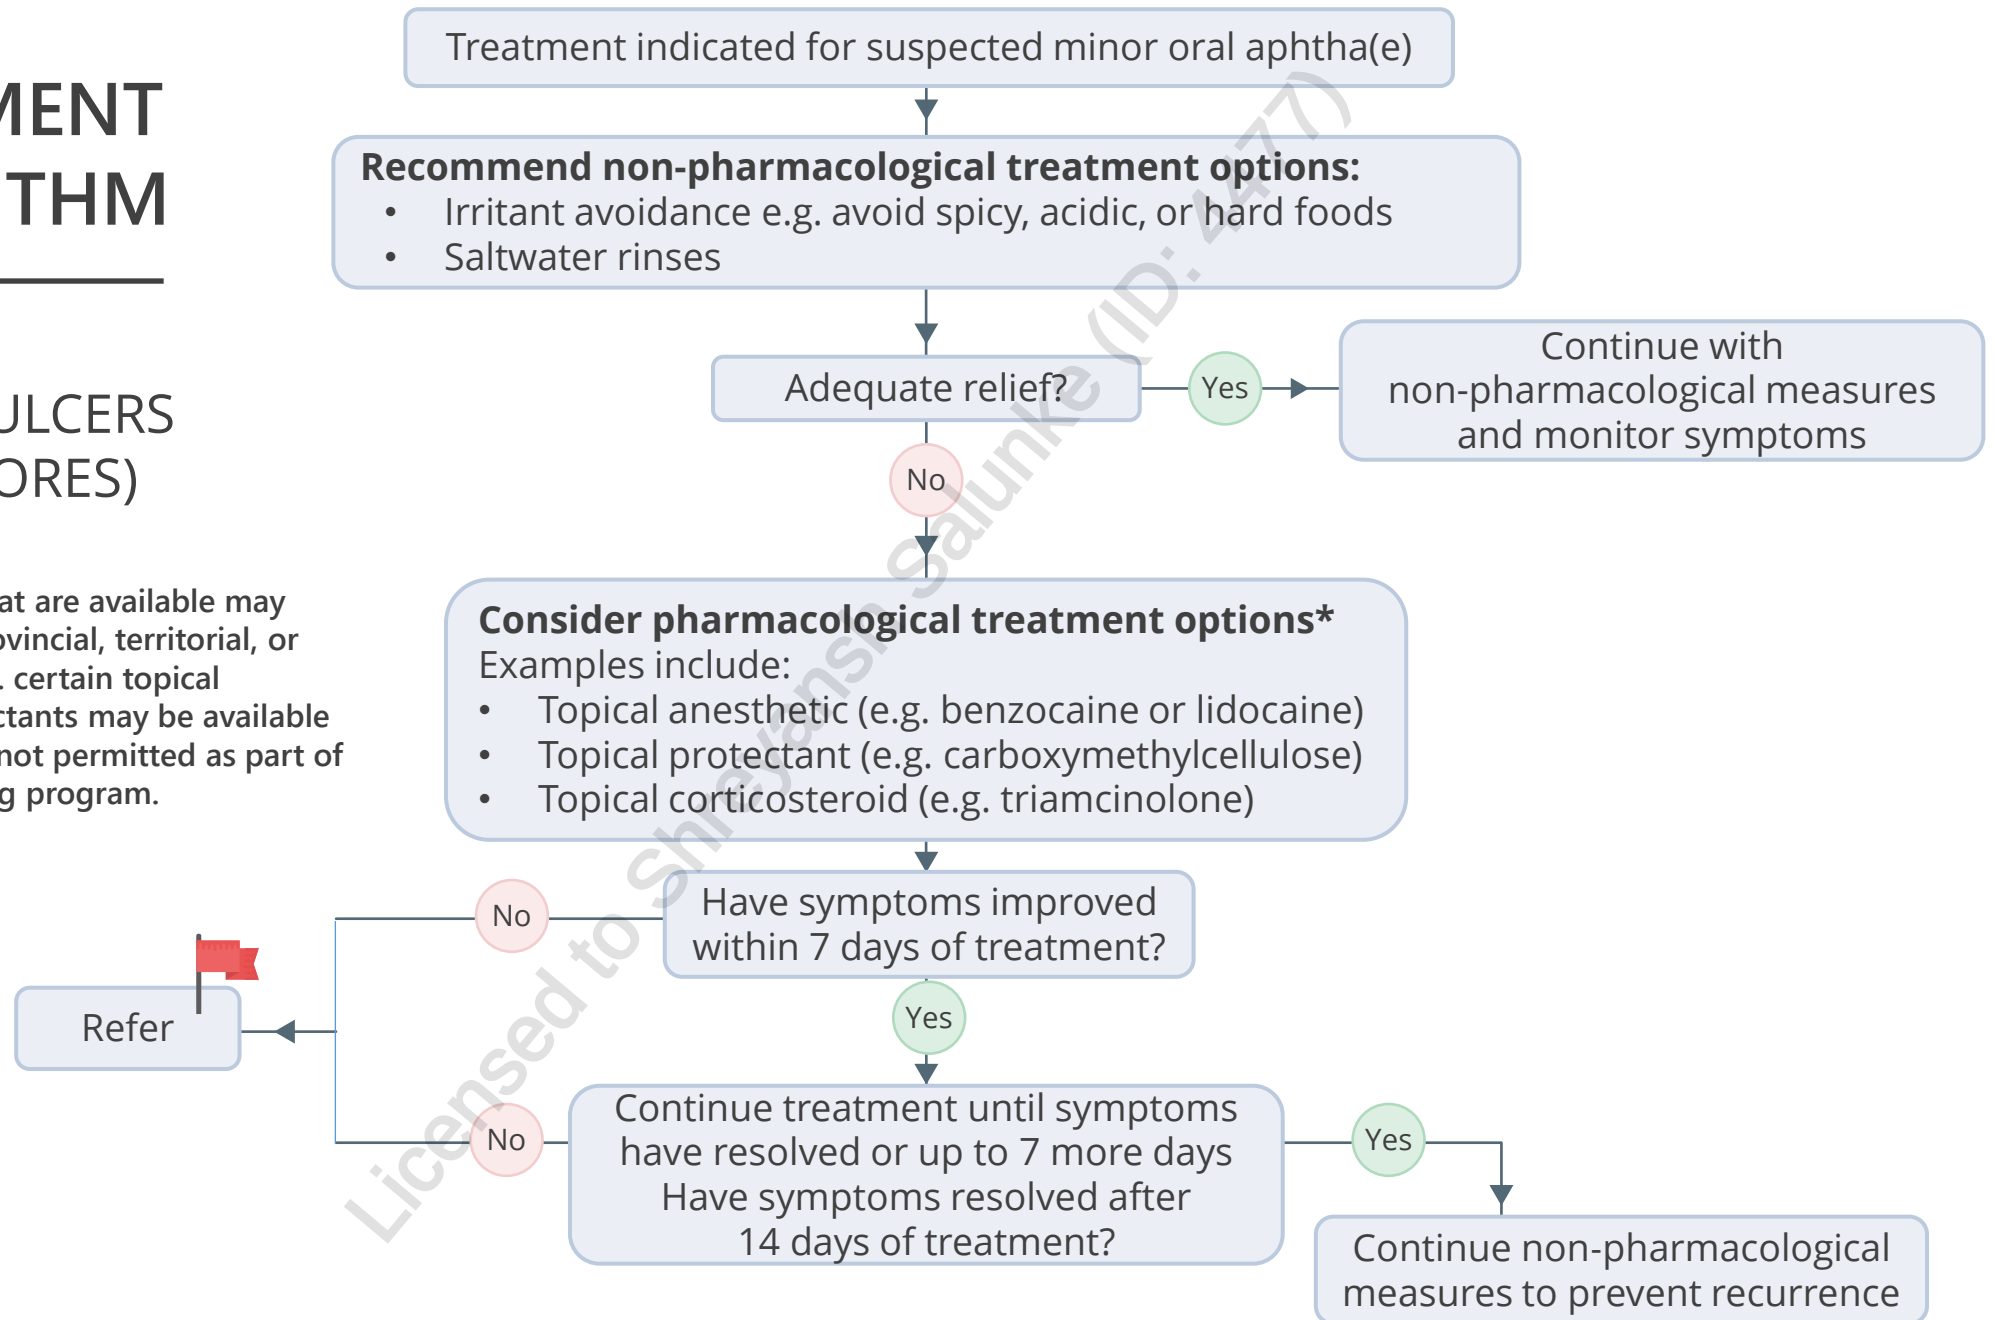

ORAL APHTHAE/ULCERS (CANKER SORES)

TREATMENT ALGORITHM

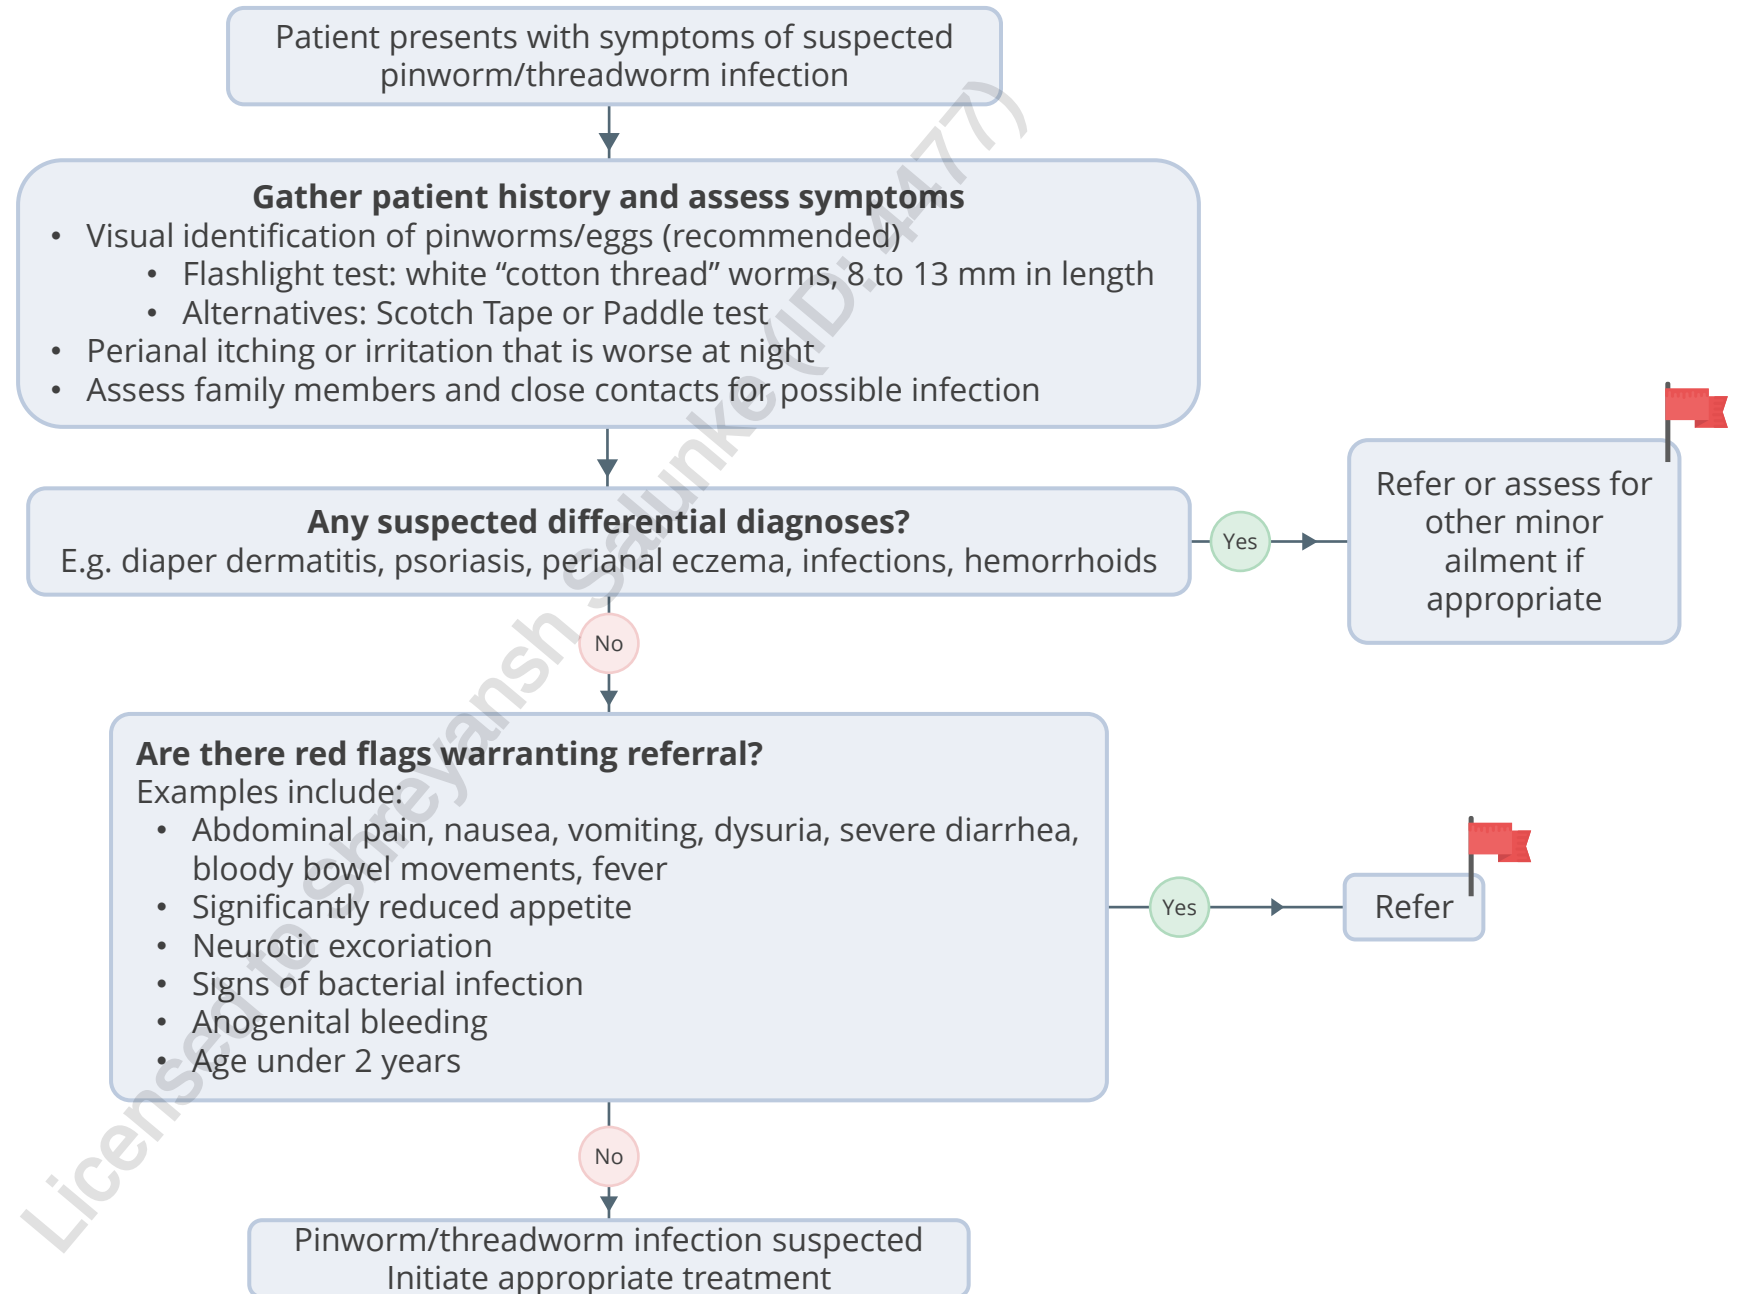

ORAL APHTHAE/ULCERS (CANKER SORES)

*Treatment options that are available may differ according to provincial, territorial, or workplace policies e.g. certain topical anesthetics and protectants may be available over-the-counter but not permitted as part of a provincial prescribing program.

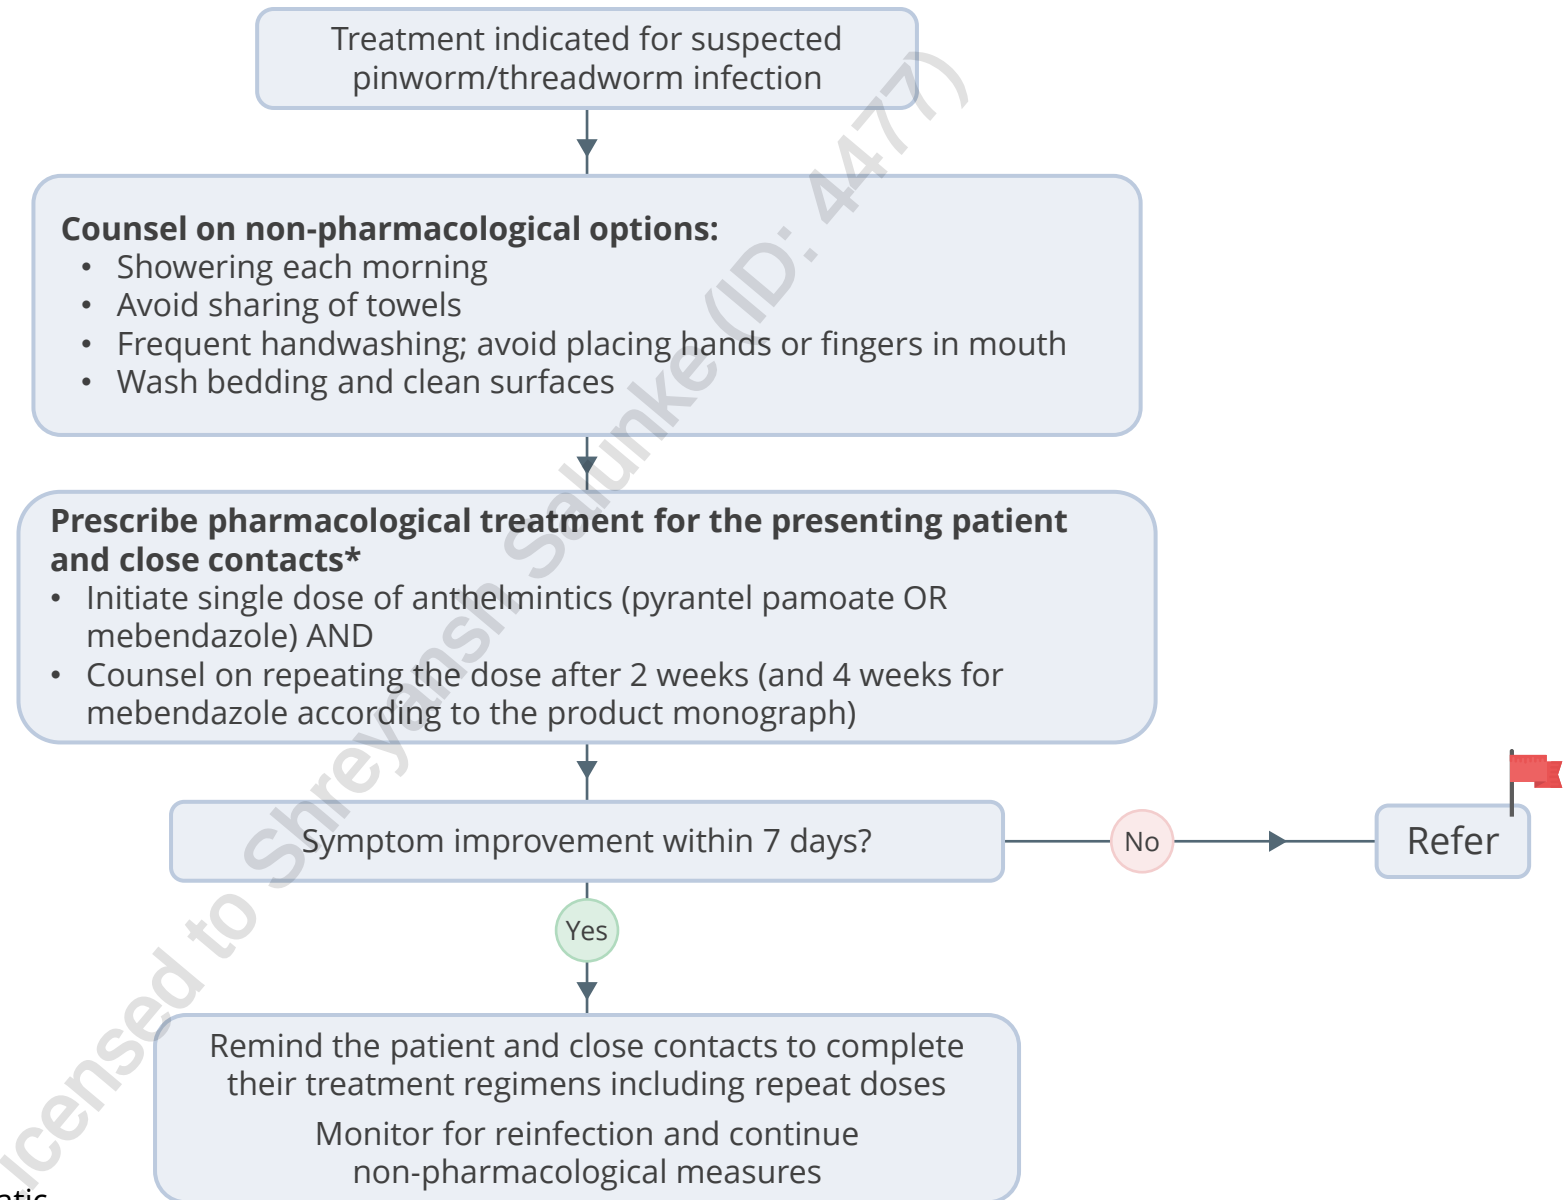

ASSESSMENT ALGORITHM

PINWORMS AND THREADWORMS

TREATMENT ALGORITHM

PINWORMS AND THREADWORMS

* Close contacts (e.g. individuals in the same household) should be treated even if asymptomatic. Complete an assessment for close contacts to ensure there are no contraindications.

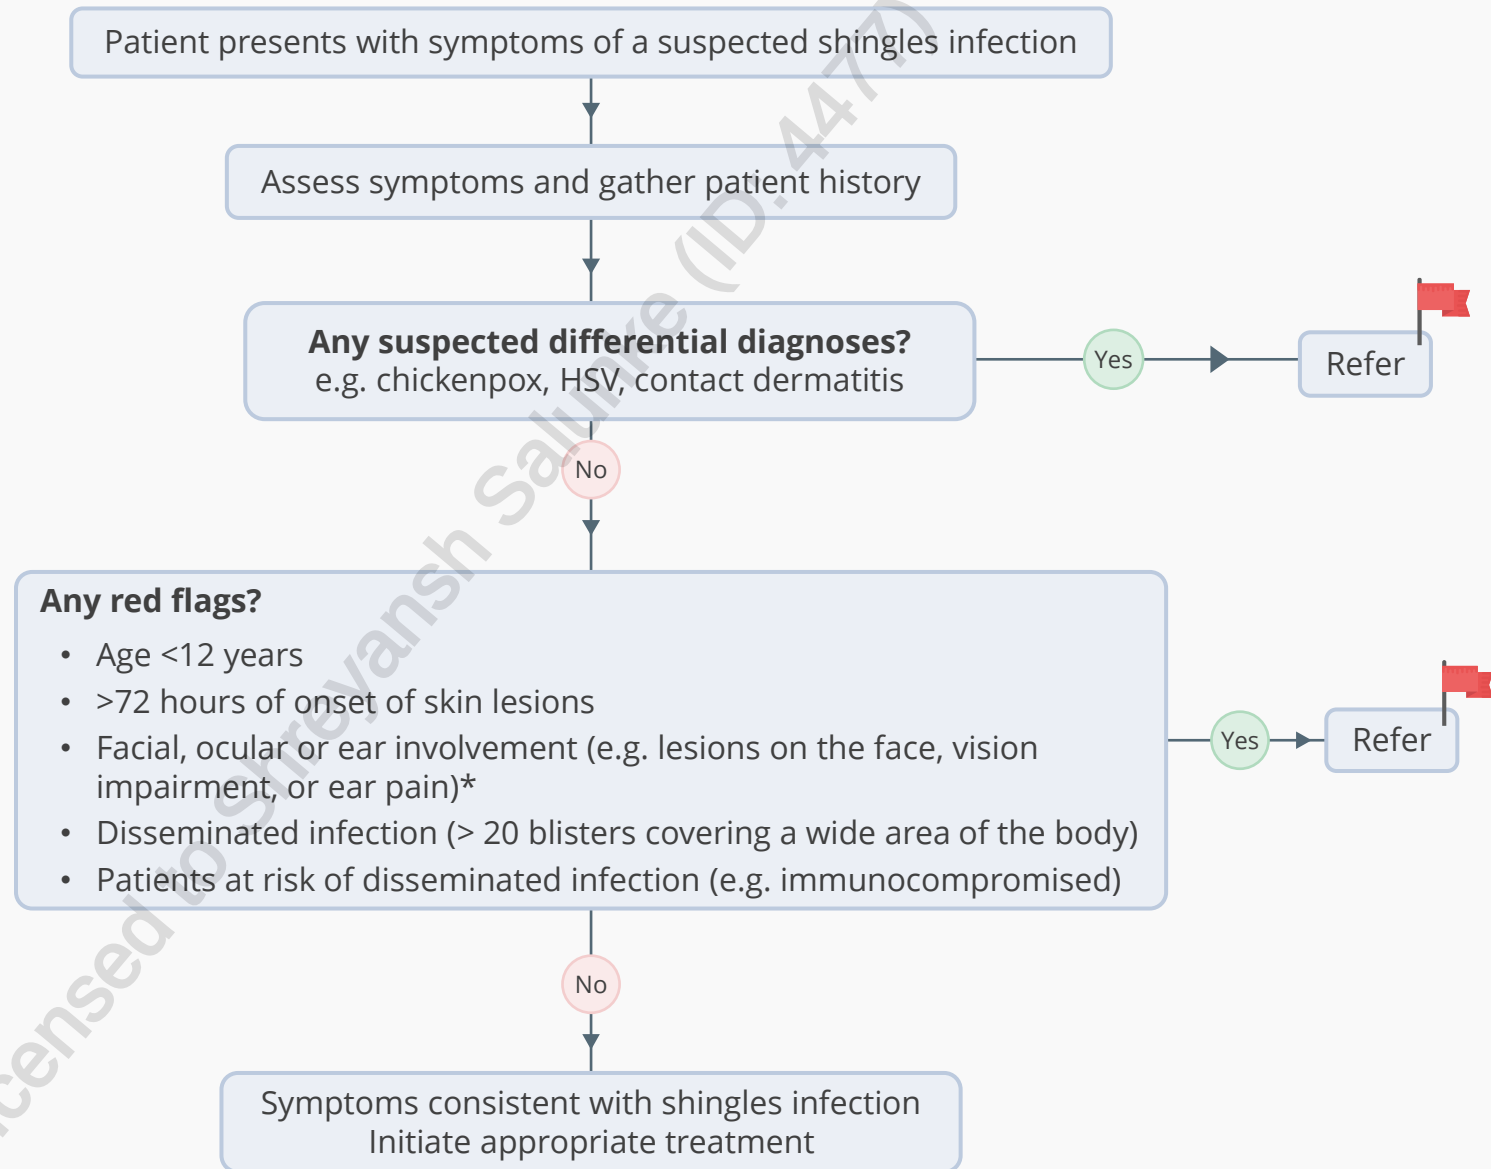

ASSESSMENT ALGORITHM

HERPES ZOSTER (SHINGLES)

*In certain cases of shingles, such as ocular involvement, treatment may still be considered; however, patients should be referred to a primary care provider or a specialist such as an ophthalmologist for further assessment

LEGEND

HSV: Herpes Simplex Virus

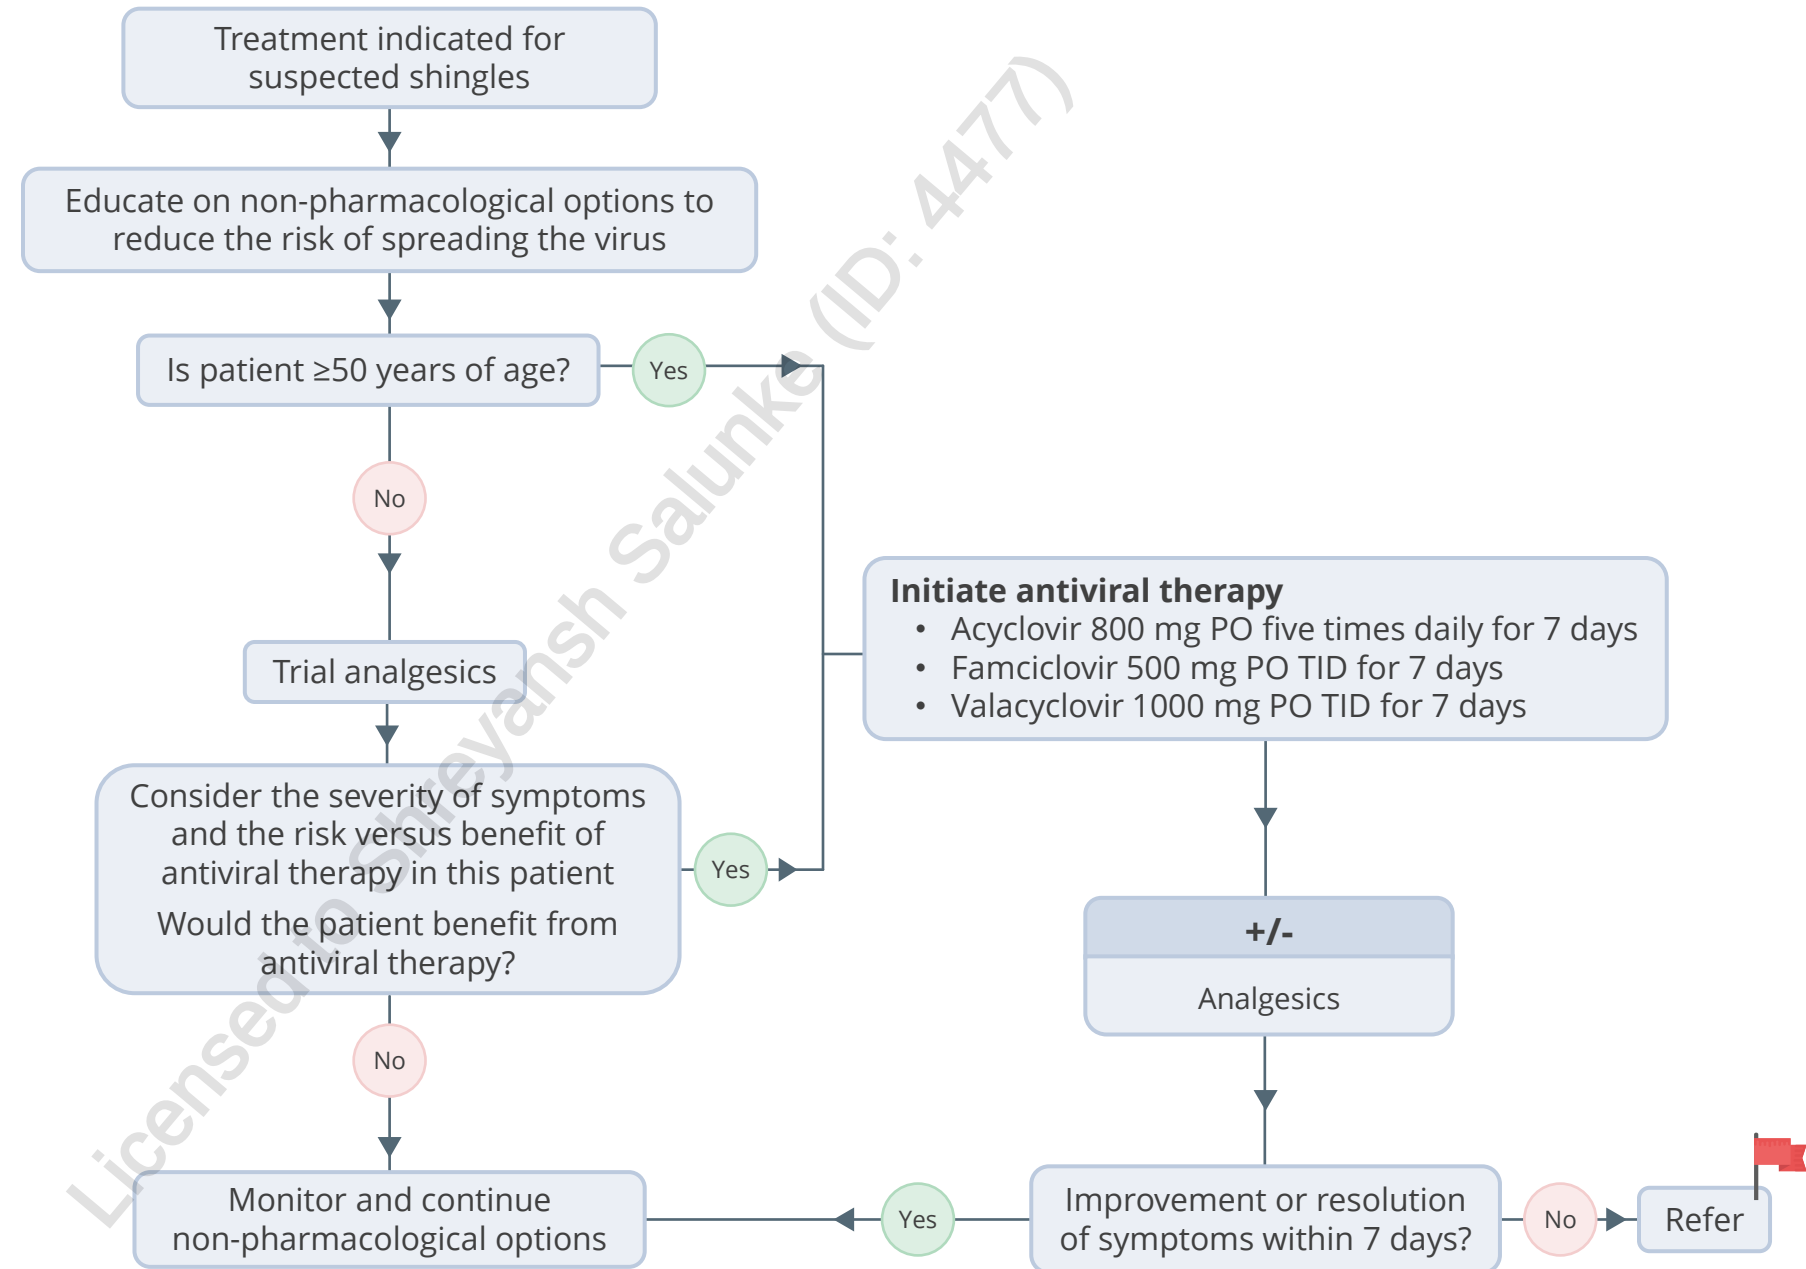

TREATMENT ALGORITHM

HERPES ZOSTER (SHINGLES)

LEGEND

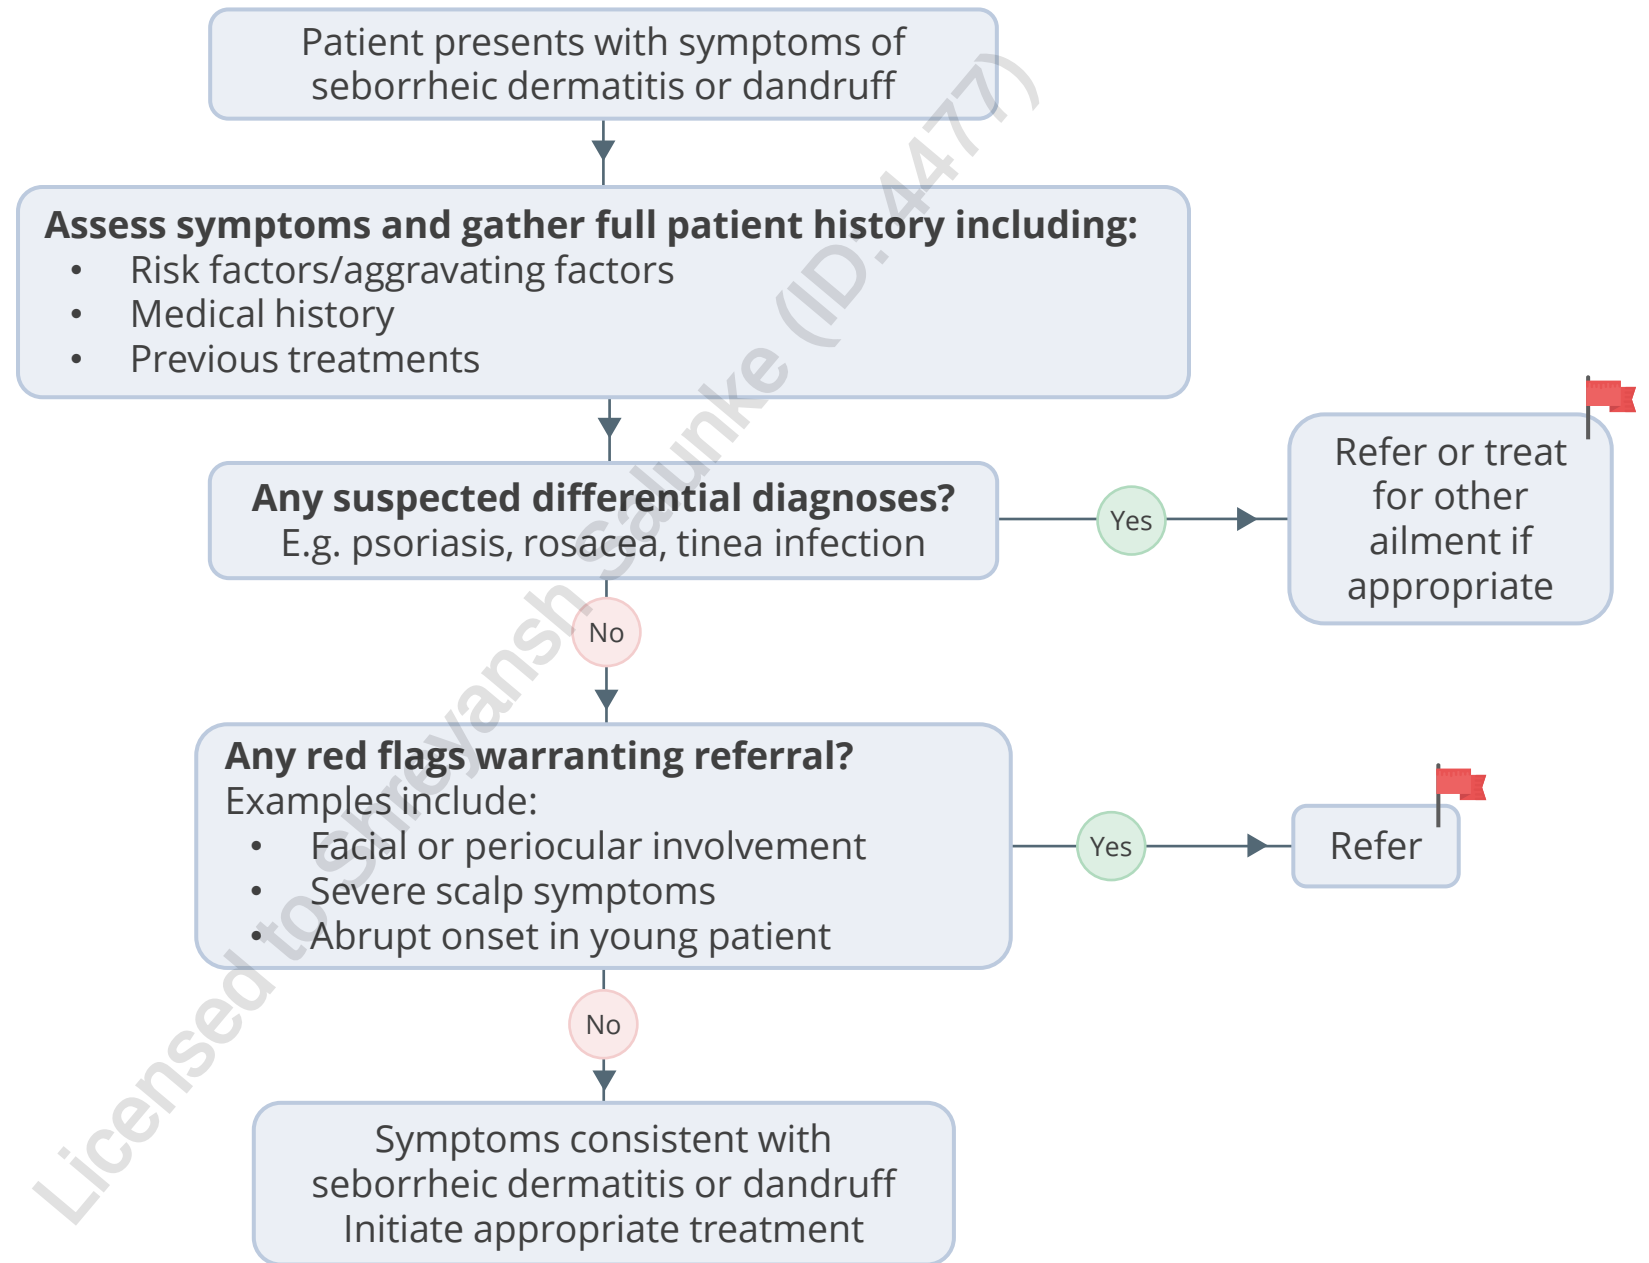

PO: By mouth

TID: Three times daily

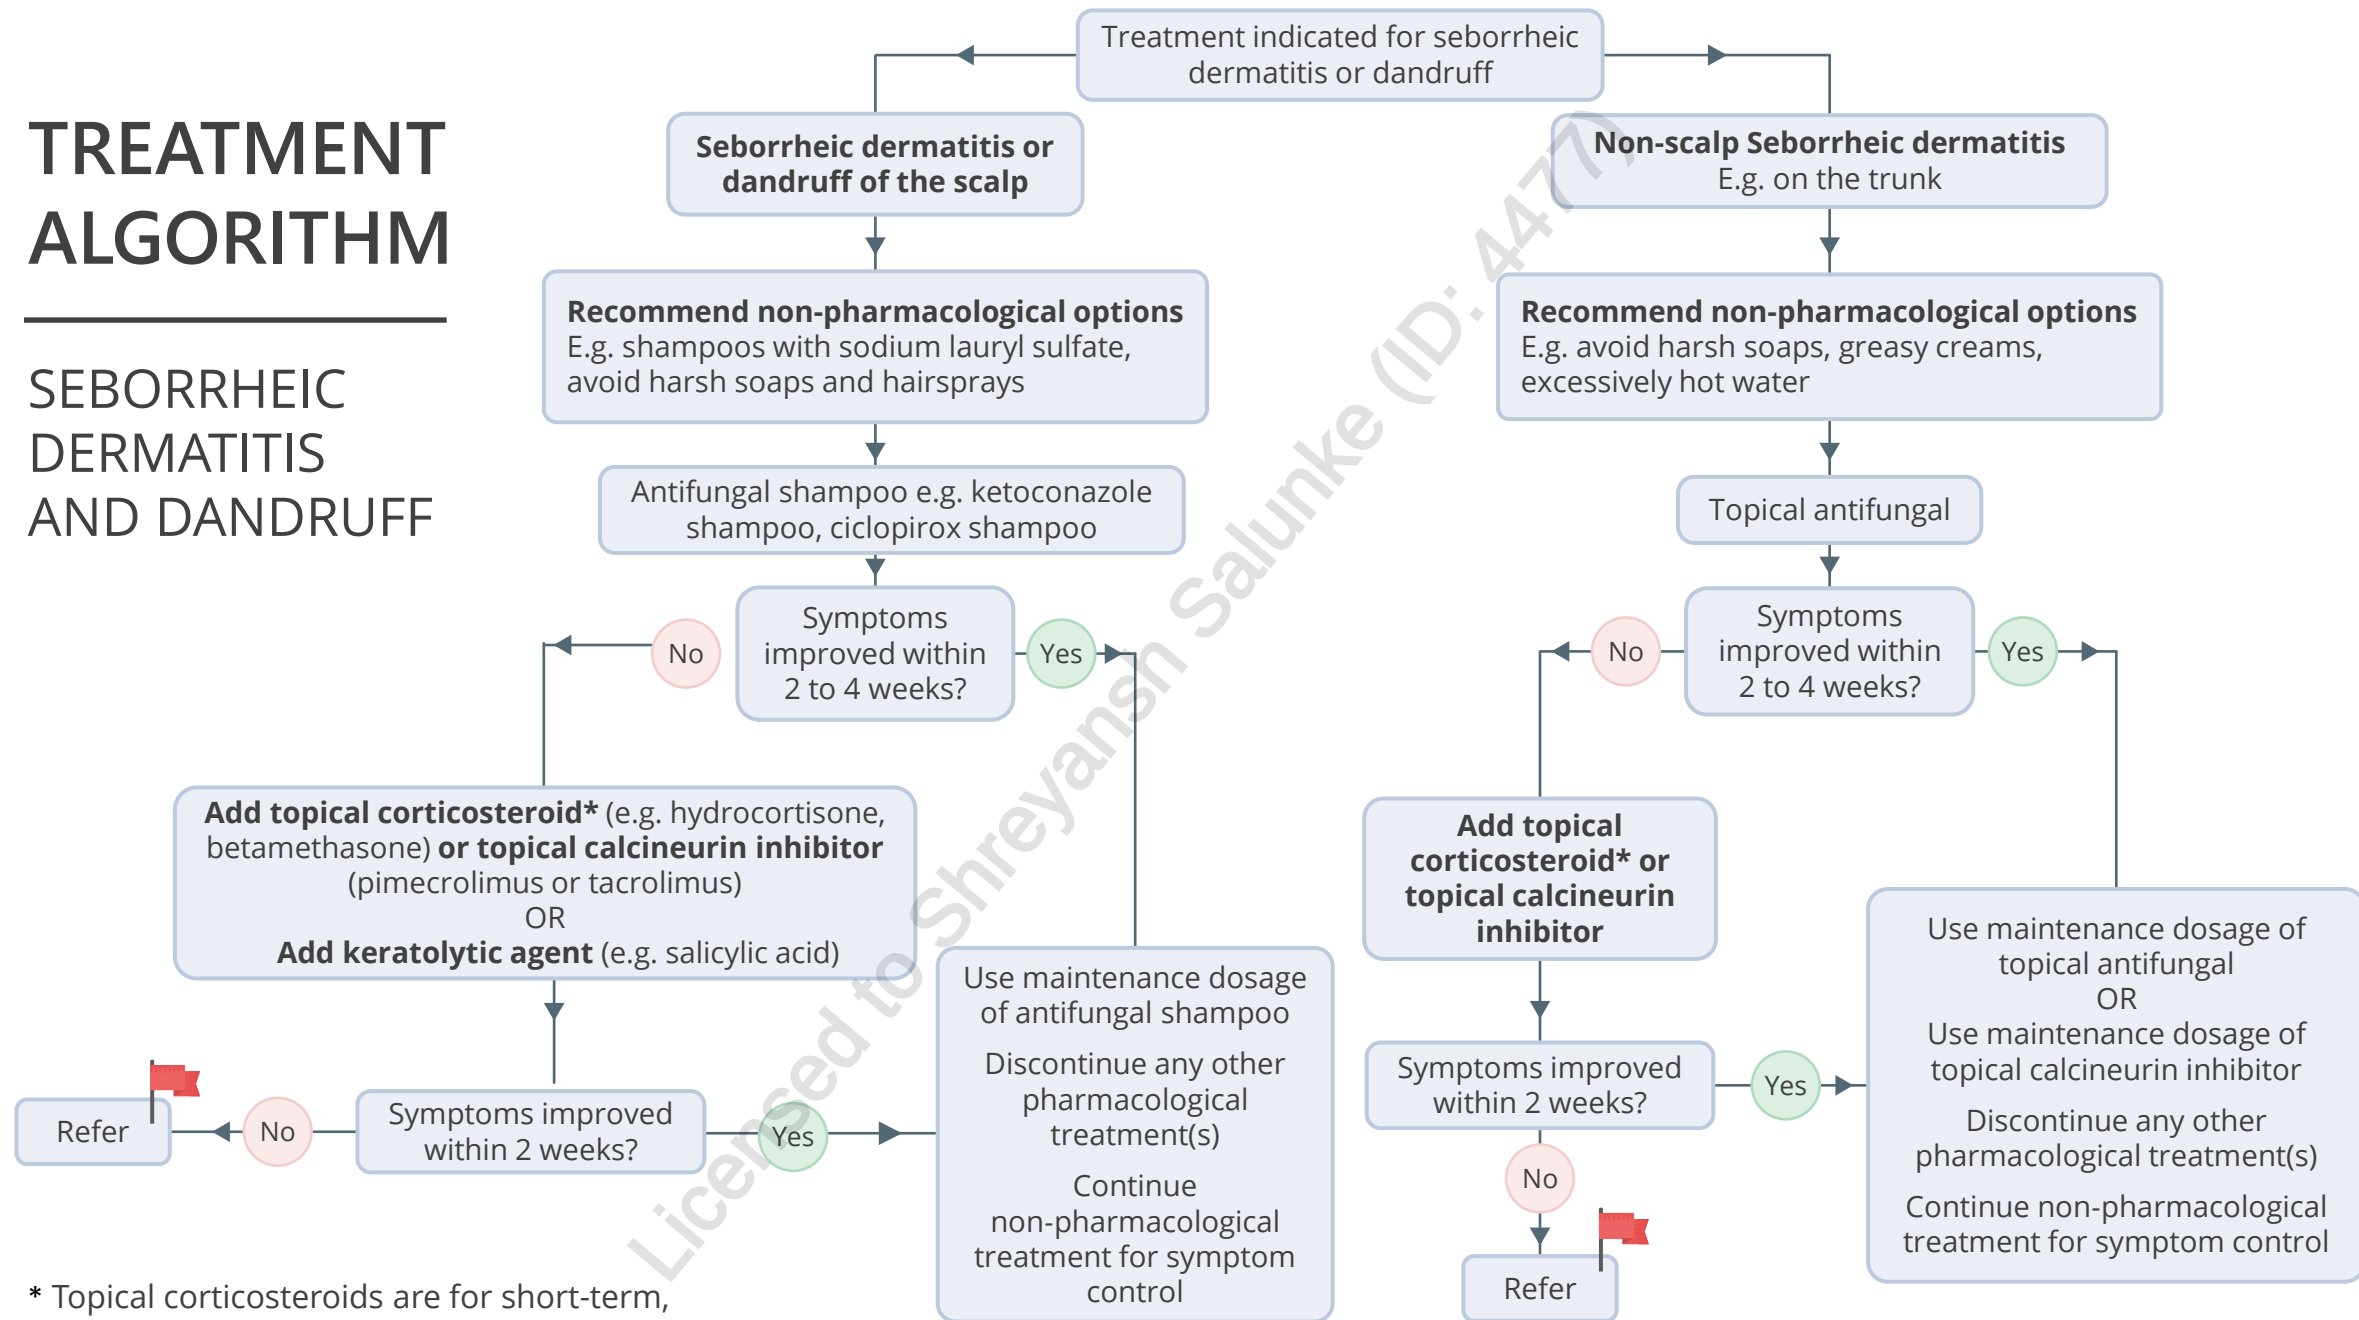

ASSESSMENT ALGORITHM

SEBORRHEIC DERMATITIS AND DANDRUFF

TREATMENT ALGORITHM

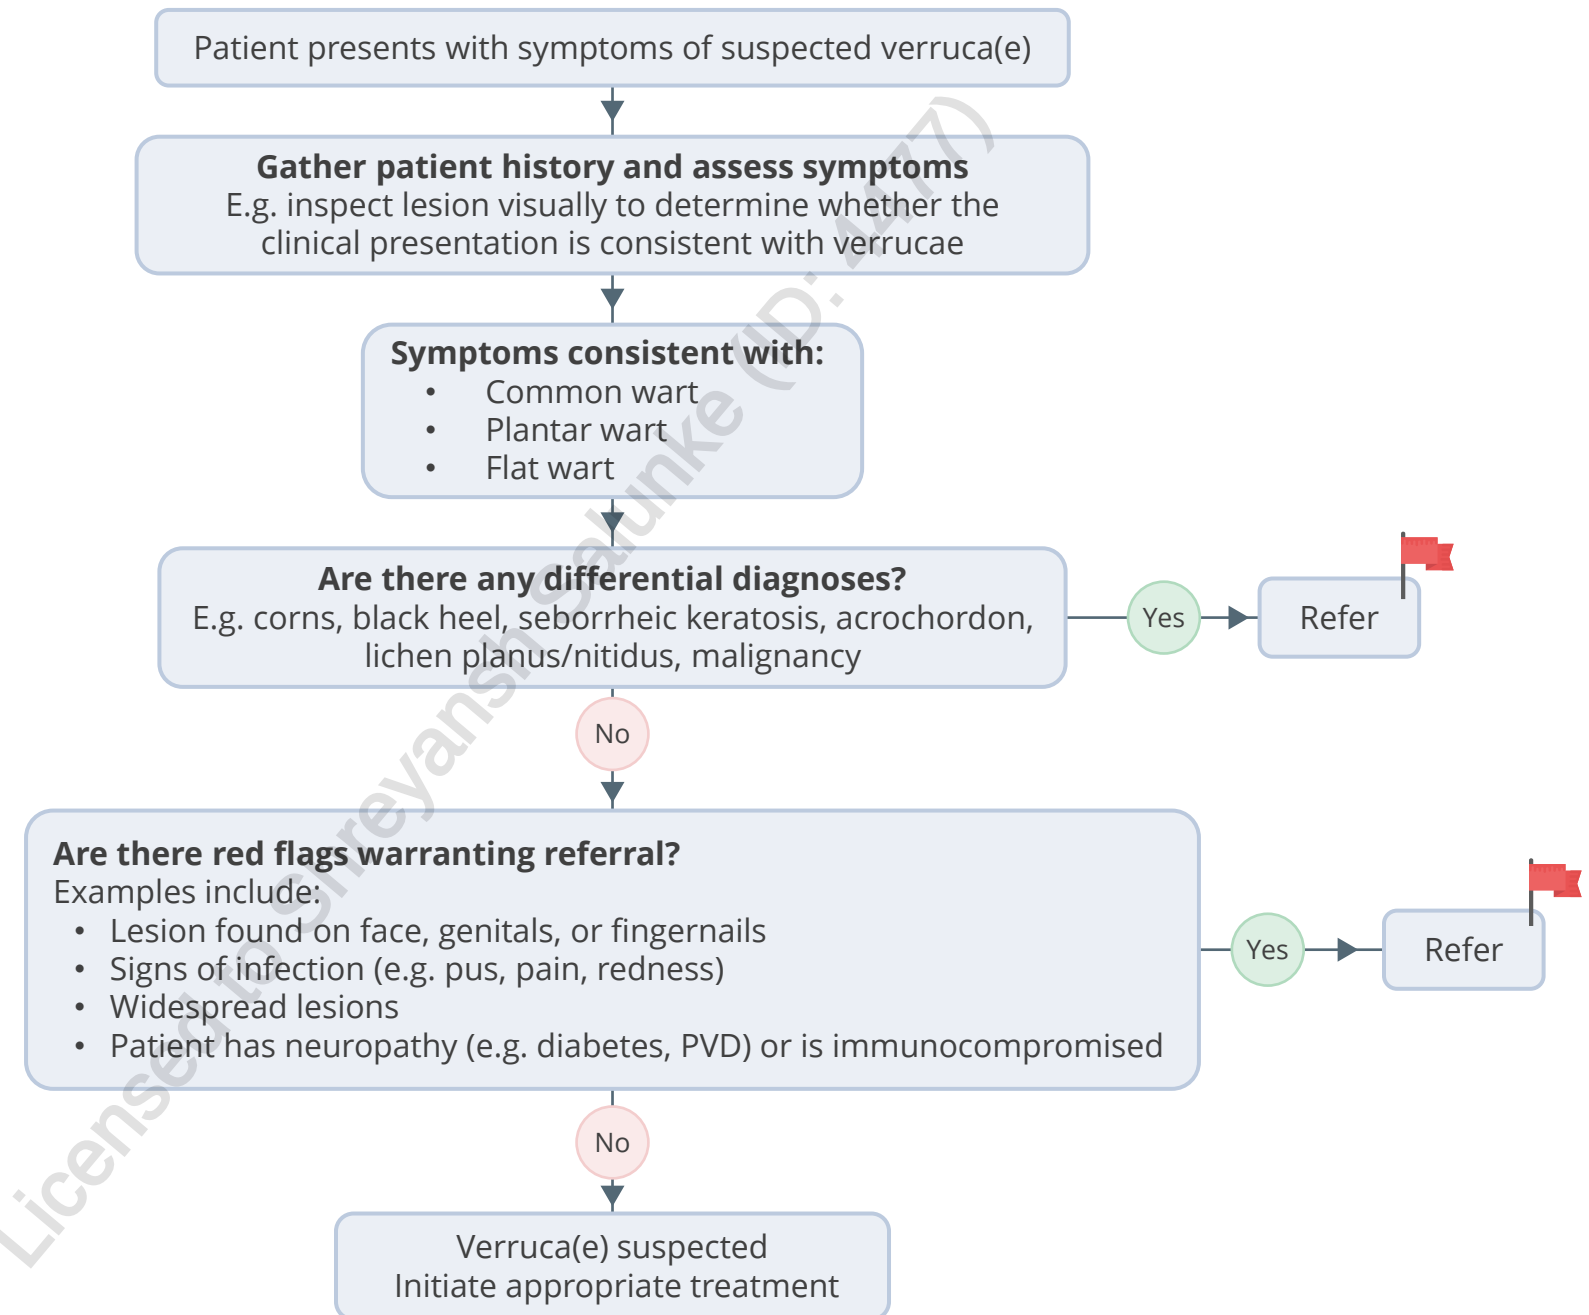

SEBORRHEIC DERMATITIS AND DANDRUFF

* Topical corticosteroids are for short-term, intermittent use only

ASSESSMENT ALGORITHM

VERRUCAE (VULGARIS AND PLANTAR WARTS)

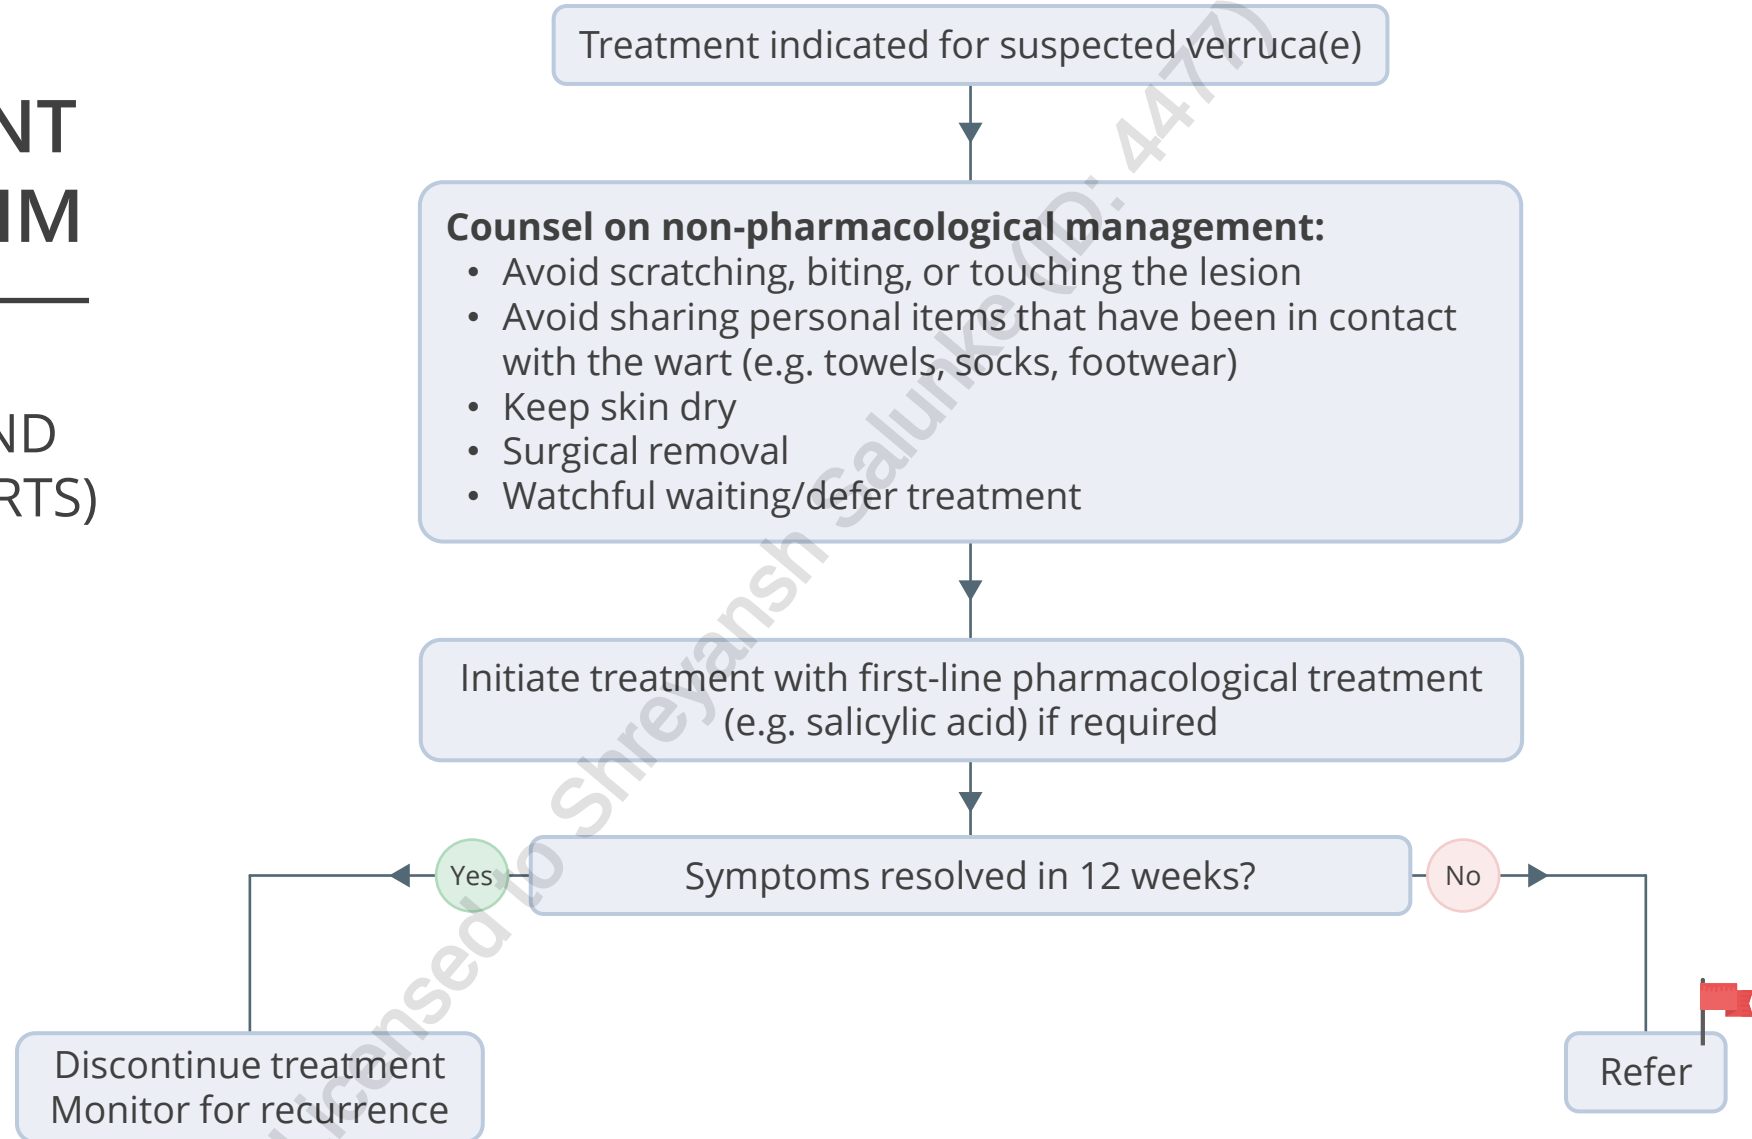

LEGEND

PVD: Peripheral vascular disease

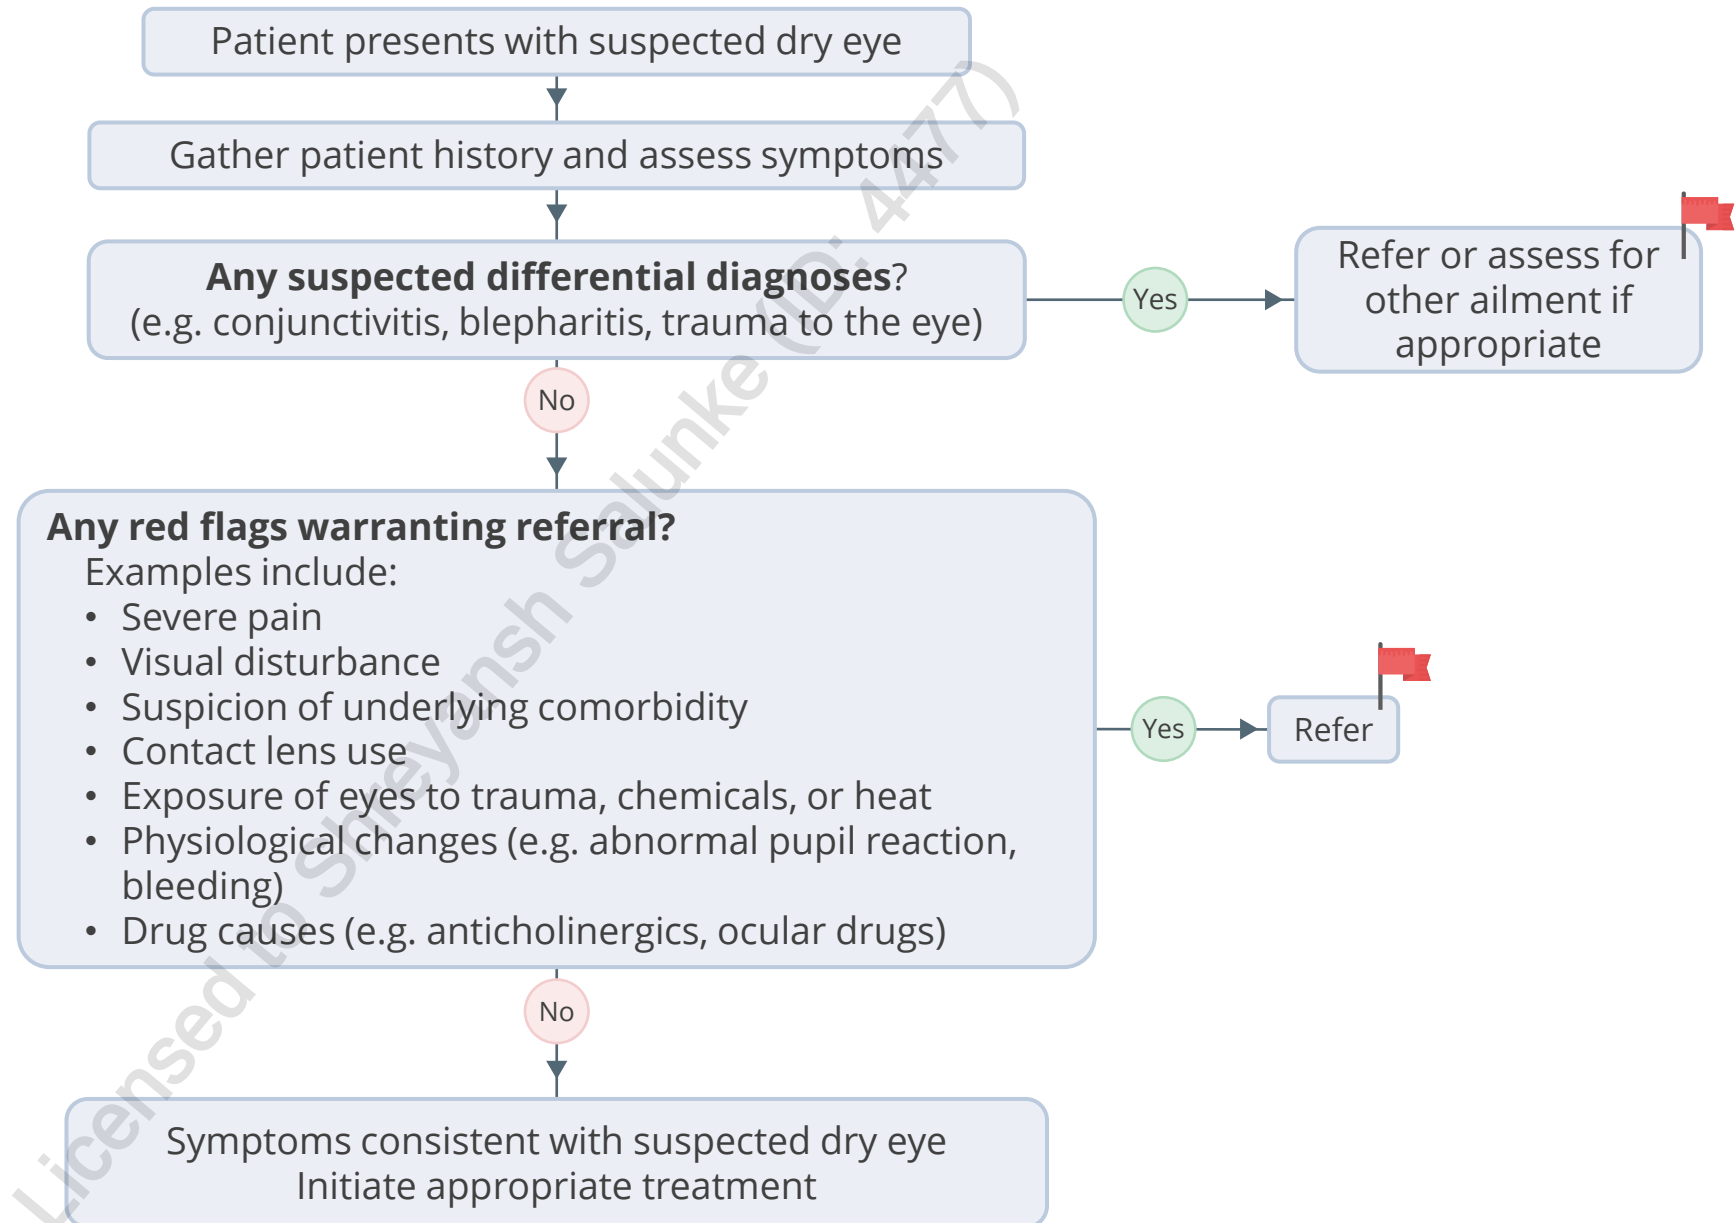

TREATMENT ALGORITHM

VERRUCAE (VULGARIS AND PLANTAR WARTS)

ASSESSMENT ALGORITHM

XEROPHTHALMIA (DRY EYES)

TREATMENT ALGORITHM

XEROPHTHALMIA (DRY EYES)
